### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

SIXTEENTH ANNUAL REPORT

OF

# THE RAILROAD COMMISSIONER

OF THE

STATE OF VIRGINIA.

---

PUBLISHED PURSUANT TO LAW.

---

RICHMOND:  
J. H. O'BANNON SUPERINTENDENT OF PUBLIC PRINTING.  
1893.

H. 4688.

JAMES E. GOODE, PRINTER.

OFFICE OF THE RAILROAD COMMISSIONER,  
RICHMOND, VA., *February 15, 1893.*

*His Excellency* P. W. MCKINNEY,  
*Governor of Virginia:*

SIR:

As required by law, I transmit to you the sixteenth annual report of this office.

Respectfully,

J. C. HILL,  
*Railroad Commissioner.*

# REPORT.

---

*To the General Assembly of Virginia:*

The sixteenth annual report of this office embraces the year ending June 30, 1892.

The reports of the several corporations show an increase of business, the gross earnings being greater by \$1,577,144 48 than for the preceding year.

## CONDITION OF THE ROADS.

During the year decided progress has been made in the physical condition of the roads. New depots have been built; new and improved rolling stock purchased; extensions of side tracks, ballasting, &c. This is notably true of the Chesapeake and Ohio road.

Financially the various corporations make a fair showing. The great Richmond and Danville system succumbed to the peculiar tactics of Wall street. This magnificent property is in the hands of various receivers, not by reason of loss of business or imprudent or reckless physical management. At present its affairs appear to be in an inextricable muddle, defying the ingenuity of reorganization committees, courts and receivers.

The Norfolk and Western has completed its Ohio extension, and trains run regularly between Norfolk and Columbus, Ohio. This extension opens nearly two hundred miles of coal, iron and timber lands heretofore closed to enterprise and devolepment, and another trunk line from the great northwest to the sea.

The Atlantic and Danville has been greatly improved under the conservative and sagacious management of the receiver.

## RAILROAD CONSTRUCTION.

The returns from the various corporations show an increase of mileage in the State over that reported the preceding year of 301.42 miles; the total number of main line, second track, branches, sidings, and spur tracks as per their returns, being 3,908.76 miles. Detail report of which is given in Table No. 1.

Returns were received from 40 corporations.

## CAPITAL STOCK.

See Table No. 2.

## INDEBTEDNESS.

See Table No. 3.

## EARNINGS.

See Table No. 4.

## ACCIDENTS.

See Table No. 5. During the year there were no serious accidents to passenger trains in the State, the casualties reported being confined principally to trainmen and employees of the several railroads.

## GROSS EARNINGS AND INCOME FROM 1886 TO 1892.

Gross earnings, 1886.....	\$14,742,387 39
Gross earnings, 1887.....	16,683,678 06
Gross earnings, 1888.....	18,653,482 12
Gross earnings, 1889.....	20,000,000 00
Gross earnings, 1890.....	24,660,646 15
Gross earnings, 1891.....	28,125,882 11
Gross earnings, 1892.....	29,703,026 59

## CORRESPONDENCE.

From the volume of correspondence have been selected sample cases, showing the nature of complaints and correspondence between the office and the railroads and the public.

Respectfully submitted,

J. C. HILL,  
*Railroad Commissioner.*

## CORRESPONDENCE.

---

WAVERLY, VA., MARCH 30, 1892.

Mr. JAMES C. HILL,

*Railroad Commissioner, Richmond, Va.:*

DEAR SIR:

I enclose you a circular from the Norfolk and Western railroad company to its shippers, setting forth certain requirements for the loading of cars. I have marked in red ink two sections of the circular that we think particularly hard on the shippers, and would be glad to know of you whether we will have to submit to these requirements, or whether they are not contrary to the law.

I contemplate making a complaint to the Superintendent of Transportation of the company in the form which I herewith enclose to you. I do not wish to appear presumptuous to him, but I certainly do not wish to be imposed upon if it is done without law.

I shall be very glad to have your early reply.

Yours truly, &c.,

GEO. E. BURT.

---

RICHMOND, VA., APRIL 2, 1892.

Correspondence with Geo. E. Burt, Waverly, Va.: Regulations loading lumber, Norfolk and Western railroad.

Respectfully referred to Mr. R. Taylor Scott, Attorney-General.

Referring to the within correspondence pertaining to this matter, will you kindly give me your opinion with reference to the rights of a common carrier to require the shippers to furnish attachments for their cars, at their expense, in moving lumber offered to them at their regular rates of transportation.

J. C. HILL,

*Commissioner.*

WAVERLY, VA., APRIL 8, 1892.

Mr. J. C. HILL,

*Railroad Commissioner, Richmond, Va.:*

DEAR SIR:

Please let me know whether you received my letter of the 30th ulto., and when I may expect a reply thereto.

Yours truly, &c.,

GEO. E. BURT.

RICHMOND, VA., APRIL 11, 1892.

Mr. GEO. E. BURT,  
Waverly, Va.:

DEAR SIR:

Regulations loading lumber, Norfolk and Western railroad.

Your letter of the 8th inst., with reference to this subject, is received. I now have the matter under advisement, and will advise you at an early date.

Yours respectfully,

J. C. HILL,  
Commissioner.

WAVERLY, VA., APRIL 18, 1892.

General JAMES C. HILL,  
Railroad Commissioner, Richmond, Va.:

DEAR SIR:

I would be very glad indeed to have your decision in the matter about which I wrote you some weeks ago.

The railroad company is pressing me to buy wire, and their agents have orders to refuse to accept shipments that are not "wired," and as I have lumber that is due my patrons, and lumber to go via vessels, I would like to know what I will have to do in the case.

Hoping to have your reply by an early mail, I am,

Yours truly, &c.,

GEO. E. BURT.

RICHMOND, VA., APRIL 15, 1892.

Gen. JAMES C. HILL,  
Railroad Commissioner, Richmond, Va.:

DEAR GENERAL:

Absence from the city has delayed my reply to your letter of the 2d inst. I read its enclosures from Mr. Geo. E. Burt, of Waverley, Va., concerning recent regulations (March 1, 1892,) made by the Norfolk and Western railroad for loading lumber piles, etc.

Its propriety and legality depends upon its effect upon the public, and of this matter "section 1299" makes you the judge.

If you think the regulations necessary for the business of the company and the accommodation and security of the public, they are proper. Otherwise an unnecessary burden, which should not be imposed.

Very respectfully yours,

R. TAYLOR SCOTT,  
Attorney-General.

N. B. Enclosures and Gen. Hill's letter of April 2d returned herein.

DEAR SIR:

Regulations Loading Lumber N. & W. R. R.

Kindly furnish me copy of the regulations governing the loading of lumber, piles, etc., on the N. & W. R. R., and oblige,

Yours respectfully,

J. C. HILL,  
*Commissioner.*

RICHMOND, VA., APRIL 19th, 1892.

Mr. GEORGE E. BURT,

*Waverly, Va.:*

DEAR SIR:

Regulations Loading Lumber N. & W. R. R.

Referring further to my letter of the 11th inst., pertaining to this matter.

I will take this matter up with the N. & W. R. R. Co. direct, and I suggest you send your proposed letter as per copy enclosed to me to the superintendent transportation of the road, and advise me of his reply.

I return, as requested, the copy of regulations referred to.

Yours respectfully,

J. C. HILL,  
*Commissioner.*

ROANOKE, VA., APRIL 21, 1892.

Gen. JAMES C. HILL,

*Railroad Commissioner, Richmond, Va.:*

DEAR SIR:

Herewith please find two copies of our circular No. 16 covering the loading of lumber, piles, &c., for transportation over the Norfolk and Western railroad.

In this connection I beg to say that we are now endeavoring to get a supply of No. 8 wire, the use of which is contemplated by the circular, which we propose to let shippers have at cost price, probably amounting to about 30 cents per car for sufficient wire to properly secure the lading.

Yours truly,

FRANK HUGER,  
*Supt. Transportation.*

Enclosures.

RICHMOND, VA., APRIL 25, 1892.

Col. FRANK HUGER,

*Supt. Transportation N. & W. R. R., Roanoke, Va.:*

DEAR SIR:

Regulations loading lumber N. & W. R. R.

Referring to your letter of the 21st inst. with reference to this subject.

Complaint has been made of the requirements of the Norfolk & Western road

in this matter. If the regulations are necessary for the security of the company's business in transit, is it not proper that the wire be furnished to the shippers for securing the lading in compliance with the regulations?

It seems to be an unnecessary burden which should not be imposed by a common carrier to require shippers to furnish attachments for their cars, at their expense, in moving lumber or other commodities offered to them at the regular rates of transportation.

Yours respectfully,

J. C. HILL,  
*Commissioner.*

—————  
ROANOKE, VA., MAY 12, 1892.

Gen. JAMES C. HILL,

*Railroad Commissioner, Richmond, Va.:*

DEAR SIR:

I regret very much that continued absence from my office has prevented earlier response to your favor under date of the 25th ult., in reference to our regulations for the loading of lumber, &c.

If you will examine the rules and regulations covering this point as adopted by the Pennsylvania railroad, Baltimore and Ohio railroad, Chesapeake and Ohio railway and other lines, I think you will find that we have endeavored to study the interests of our shippers and to impose as few restrictions on this business as possible. Now that we have second track on some portions of our road, and we are arranging for additional second track on other portions as rapidly as may be, we find it is very dangerous to handle lumber shipments unless the same are properly secured. It is the purpose of this company, and we are now endeavoring to carry it out, to furnish shippers with the necessary wire for securing their lumber as contemplated, at cost, which I think will amount to about 30 cents per car. Certainly shippers who load lumber should do so under reasonable regulations so as to make it absolutely secure. On some sections of our road where the line is straight, as for instance, on the Norfolk division, we have made exceptions to the rule, allowing shippers to secure the lumber under the ordinary practice which has obtained heretofore, but for shipments destined to such portions of our line where the curvature is great, we have had so much damage and have run so many risks on account of this manner of loading that we have been compelled to take measures to secure ourselves from such risk in this respect.

Yours truly,

FRANK HUGER,  
*Supt. Transportation.*

RICHMOND, VA., MAY 14, 1892.

Mr. GEORGE E. BURT,

DEAR SIR:

Regulations Loading Lumber N. &amp; W. R. R.

Referring further to our correspondence pertaining to this matter, my last letter under date of April 19th.

For your information I send you copy of letter I have received from the superintendent transportation of the Norfolk and Western road in regard to this matter.

As lumber shipments over the eastern division of the road is excepted from the general rules applicable on other portions of their road, I presume your shipment will not be interfered with.

I will advise you further in the matter as early as practicable.

Yours respectfully,

J. C. HILL,  
*Commissioner.*

DEAR SIR:

Railway laws affecting street railroads.

Receipt is acknowledged of your letter of the 6th instant pertaining to this matter.

I have now under advisement the matter of construction of the statute with reference to its application to street railways, and will advise you as soon as it is passed upon.

Yours respectfully,

J. C. HILL,  
*Commissioner.*

RICHMOND, VA., JUNE 3, 1892.

General J. C. HILL,  
*Railroad Commissioner:*

DEAR SIR:

I am informed that the statement has been made in the public press that the new railroad law, known as the Mason act, applies to street railways as

well as other common carriers, and that said railways are obliged to withdraw their passes from all persons save those in the employment of the company. I should be glad, as counsel for certain street railway lines of this city, to have your official construction of the law.

Very respectfully,

WYNDHAM R. MEREDITH.

RICHMOND, VA., JUNE 27, 1892.

Mr. WYNDHAM R. MEREDITH,

*Tenth and Bank streets, Richmond, Va.:*

DEAR SIR:

Railroad laws applicable to street railways.

Referring to your letter of the 3d instant, pertaining to this matter, I send you herewith copy of letter from the Attorney-General giving his construction of the law with reference to its application to street railways.

Yours respectfully,

J. C. HILL,  
*Commissioner.*

RICHMOND, VA., JUNE 4, 1892.

Letter Wyndham R. Meredith asking construction of law with reference to street railways.

Respectfully referred to Mr. R. Taylor Scott, Attorney-General.

Referring to the within letter from Mr. Wyndham R. Meredith pertaining to this matter, will you kindly give me your construction of the statute with reference to its application to street railways, and oblige,

J. C. HILL,  
*Commissioner.*

RICHMOND, VA., JUNE 27, 1892.

Mr. WM. H. STEVENS,

*Portsmouth, Va.:*

DEAR SIR:

Railway laws affecting street railways:

Referring further to my letter of the 8th instant. This matter was referred to the Attorney-General for his construction of the statute with reference to its application to street railways, and I send you herewith copy of his reply for your information.

Yours respectfully,

J. C. HILL,  
*Commissioner.*

RICHMOND, VA., JUNE 22, 1892.

JAMES C. HILL,

*Railroad Commissioner, Richmond, Va.:*

DEAR SIR:

Absence from the city prevented an earlier reply to your letter of .

the 4th inst., enclosing Mr. W. R. Meredith's communication of June 3d herein returned.

You ask for my construction of the recent statute, entitled "An act to further regulate and control common carriers doing business in this State, and further defining the duties of the Railroad Commissioner in relation thereto," *with reference to street railways*. (See Acts 1891-'2, c. 614, p. 965.)

As Railroad Commissioner your supervision is confined to "railroads in this State operated by steam." "'Common carrier,' within the meaning of and as defined by the eighteenth section of the statute under consideration, includes railroads, express or canal companies, chartered by this or any other State, and doing business in this State; steamboats, steamships, or ferry companies doing business in this State, whether incorporated or not, and whether operated or controlled by an individual or a partnership." My construction of the statute is that it has no application to *street railways*. Further, that over *this* kind of railway Virginia's Railroad Commissioner holds neither supervisory authority nor power.

Very respectfully yours,

R. TAYLOR SCOTT,  
*Attorney-General.*

NEW YORK, JUNE 10, 1892.

J. C. HILL, *Esq.*,  
*Railroad Commissioner, Richmond, Va.:*

DEAR SIR:

Will you kindly advise us whether the street railway corporations of your State are required to make reports of their capitalization, cost, earnings, mileage, etc., to any official of your State? If so, to whom; and whether it would be possible for us to procure copies of such returns?

An early reply will greatly oblige,

Very respectfully yours,

JNO. P. MEANY,  
*Managing Editor.*

RICHMOND, VA., JUNE 11, 1892.

Mr. JOHN P. MEANY,  
*Editor Poor's Manual, New York:*

DEAR SIR:

Regulation street railways.

Referring to your letter of the 10th instant, street railways have not been required to make reports to this office heretofore, but the matter of this regulation is now under consideration, and will be passed upon at an early date.

Letter and freight bill, J. Stoneman & Son: Complaint, rates on one keg powder, Richmond to Island, Va.

Respectfully referred to Mr. E. D. Hotchkiss, G. F. A., C. & O. R. R.

Referring to the attached letter from J. Stoneman & Son, kindly advise me how such shipments are classified on the C. & O. road, and oblige,

J. C. HILL,  
Commissioner.

RICHMOND, VA., DECEMBER 9, 1891.

General J. C. HILL,  
Railroad Commissioner, City:

DEAR SIR:

We beg to return herewith enclosures received with your note of hand embodying complaint of Mr. J. Stoneman, Island, regarding our minimum charge on shipments of powder. The carriage by transportation companies of powder and high explosives is always more or less dangerous, and it is necessary to apply some minimum. This minimum we have made \$2, which, when compared with that made by a great many other roads, is extremely reasonable. While this is the minimum charge on any consignment, no matter how small, the parties at Island would have the privilege of shipping nearly 300 pounds for this same \$2 at the rate of 74 cents per hundred pounds. We trust that this explanation will be satisfactory, and that you may be able to explain to the satisfaction of Mr. Stoneman.

Yours truly,

E. D. HOTCHKISS,  
G. F. A.

RICHMOND, VA., DECEMBER 10, 1891.

Mr. CHAS. G. EDDY,

I wish you would be kind enough to send me copies of your regulations with reference to the transportation of high explosives over the N. & W. R. R., and if there is any special classification for powder or high explosives, a copy thereof, and oblige,

Yours respectfully,

J. C. HILL,  
Commissioner.

ROANOKE, VA., DECEMBER 12, 1891.

JAS. C. HILL, Esq.,

which is in accordance with the rules of all lines north of us, and also the C. & O. and B. & O., using official classification. The rules and regulations for the shipment of high explosives, circular governing same herewith enclosed. I trust this information is what you desire.

*Vice-President.*

RICHMOND, VA., DECEMBER 15, 1891.

Mr. E. D. HOTCHKISS,  
*G. F. A. C. & O. R. R.:*

DEAR SIR:

Complaint rates and minimum charge, powder, J. Stoneman & Son, Island, Va.

Referring further to your letter of the 9th instant, with attached papers in this matter. If I construe your circular No. 238 correctly, no distinction is made between common black powder and high explosives, and your regulations in this respect are different from those of other roads that have adopted similar restrictions in the shipment of explosives.

Will you kindly advise me of the reasons for demanding as a minimum charge \$2 on small shipments of common black powder when properly packed for shipment. I have complaints similar to Messrs. Stoneman & Son's from Messrs. Beale Bros., of Scottsville, and J. Hayden Martin, Palmyra, Va., which will be sent to you for attention in due course.

Yours respectfully,

J. C. HILL,  
*Commissioner.*

---

LYNCHBURG, VA., DECEMBER 19, 1891.

General J. C. HILL,  
*Railroad Commissioner, Richmond, Va.:*

DEAR SIR:

The Chesapeake and Ohio railroad have adopted \$2 as a minimum charge upon shipments of powder, so that in many cases the freight has exceeded the value of the shipment.

As to nitro-glycerine, dynamite, and giant powder, this would be perhaps justifiable, but we hardly think it reasonable in regard to rifle powder, as there is no other road that we know of in the State having any such regulation. On country merchants who only purchase rifle powder in very small quantities this acts as a burden, while upon contractors and others who purchase it exclusively in large quantities, the minimum charge as per regular tariff rate would, as you are aware, be in excess of this charge.

Will you please take this up with the Chesapeake and Ohio authorities and see if it is not possible to have them amend their regular order to except rifle powder from this minimum charge.

Yours truly,

EDGAR FRANKLIN,  
*Secretary.*

RICHMOND, VA., DECEMBER 21, 1891.

Mr. E. FRANKLIN,

*Secretary Board of Trade, Lynchburg, Va.:*

DEAR SIR:

Minimum charge high explosives, C. & O. R'y.

Acknowledging receipt of your letter of the 19th inst., I have had this subject under consideration for some time, and hope to dispose of it at an early date, when I will advise you of the result.

Yours respectfully,

J. C. HILL,

*Commissioner.*

RICHMOND, VA., DECEMBER 22, 1891.

General J. C. Hill,

*Railroad Commissioner, City:*

DEAR SIR:

We are in receipt of your favor of December 15th, regarding minimum charge on shipments of common black powder.

We suppose it will be entirely agreeable to you, also to the shippers and consignees of powder, if we will make the minimum \$1, it being understood that the minimum on any other high explosive will be \$2, as heretofore. We have just conferred with a large shipper of powder from Lynchburg, who advises us that this reduction on our part on this minimum will be entirely satisfactory.

Yours truly,

E. D. HOTCHKISS,

Acknowledging receipt of your letter of the 22d inst., pertaining to this subject, I have not yet understood why the necessity for applying a different rule with reference to the minimum assessment basis on common black powder, properly packed for shipment, and other classes of freight.

Will you be kind enough to advise me, and oblige.

J. C. HILL,

*Commissioner.*

RICHMOND, VA., DECEMBER 29, 1891.

Mr. J. C. Hill,

*Railroad Commissioner, City:*

DEAR SIR:

Your letter December 24th, in regard to minimum charge on L. C. L. shipments high explosives, received. Beg to advise that we are to-day

issuing circular No. 337 corrected, which will make the minimum on any shipment of common black powder, double first class, minimum 100 pounds.

G. F. A.

RICHMOND, VA., DECEMBER 31, 1891.

Messrs. BEALE BROS.,  
Scottsville, Va.:

GENTLEMEN:

Minimum charge high explosives, C. & O. R'y.

Referring to your recent complaint with reference to the minimum rate of \$2 charged by the C. & O. R'y Co. on shipments of common black powder over their road. This classification has been cancelled, and hereafter such shipments will be rated at the usual classification, viz.: double first-class in L. C. L. quantities and first class when in car loads. Shipments of less weight than 100 pounds to be charged as for that quantity.

I wish you would get together your freight bills that have been assessed at the \$2 rate, and send them to Mr. Hotchkiss for correction, stating that they are sent at my request.

Yours respectfully,

J. C. HILL,  
Commissioner.

RICHMOND, DECEMBER 31, 1891.

Mr. E. D. HOTCHKISS,  
G. F. A., C. & O. R. R. Co.:

DEAR SIR:

Minimum charge high explosives, C. & O. R'y.

Referring to your letter of the 29th inst., and other correspondence pertaining to this matter, I send you herewith freight bills covering two shipments powder from Richmond, consigned to J. Stoneman & Son, Island, and J. H. Martin, Middleton mills, both of which are charged at the rate of \$2 minimum.

Please arrange to refund the overcharge to the parties as early as practicable, advising me when done, and oblige,

Yours respectfully,

J. C. HILL,  
Commissioner.

RICHMOND, VA., JANUARY 1, 1892.

Mr. E. FRANKLIN,  
Secretary Board Trade, Lynchburg, Va.:

DEAR SIR:

Minimum charge, high explosives, Chesapeake and Ohio railway.

Referring further to your letter of the 19th ulto., pertaining to this matter. The general freight agent of the Chesapeake and Ohio railway writes me that common black powder will hereafter be taken as first-class in car loads and double first-class in less than car loads, subject to the usual minimum of 100 pounds when

in small quantities. The minimum charge of \$2 formerly assessed to be discontinued.

Yours respectfully,

J. C. HILL.

*Commissioner.*

LYNCHBURG, VA., JANUARY 1, 1892.

General J. C. Hill,

*Richmond Commission, Richmond, Va.:*

DEAR SIR:

I am advised to-day by Mr. Hotchkiss that he has issued a circular changing the rate on common black powder to D first-class, minimum 100 pounds, which is satisfactory to this Board.

Mr. Smith also advises us on the part of the Norfolk and Western road that the station of Preston will be changed, so that further action on your part will be unnecessary.

Thanking you for your attention,

I am, yours truly,

EDGAR FRANKLIN.

*Secretary.*

RICHMOND, VA., JANUARY 6, 1892.

Minimum charge high explosives, Chesapeake and Ohio railway company.

Respectfully returned to Mr. E. D. Hotchkiss, G. F. A. C. & O. Railway Company.

Returning herewith papers pertaining to this matter, and noting your endorsement of the 1st instant, I think these overcharges should be refunded on the basis of the present official classification, which has been adopted for future shipments. The minimum rate of \$2 as charged is unreasonable and unjust.

J. C. HILL,

*Commissioner.*

RICHMOND, VA., JANUARY 9, 1892.

General J. C. Hill,

*R. R. Commissioner, Richmond, Va.:*

DEAR SIR:

Your favor of January 6th, asking us to make our charge \$1 on shipments of black powder consigned to Stoneman & Son and J. H. Martin. We have given instructions to have \$1 refunded to each of these parties on shipments made to them December 4th.

Yours, truly,

E. D. HOTCHKISS,

*General Freight Agent.*

Mr. E. D. Hotchkiss,

*G. F. A., C. & O. R. R.:*

DEAR SIR:

Minimum charge high explosives, C. & O. R'y Co.

Referring to your letter of the 9th inst. The refund on the shipments in ques-

tion should be on the basis of the classification adopted as per your letter of December 29th, viz.: Double first-class rate, not less than 100 pounds, charged for as a minimum.

Yours respectfully,

J. C. HILL,  
*Commissioner.*

RICHMOND, VA., JANUARY 25, 1892.

Letter, Jas. A. Walker, Gladstone, Va.: Complaint rate \$2, one keg powder from Lynchburg.

Respectfully referred to Mr. E. D. Hotchkiss, G. F. A., C. & O. R. R.

I send you herewith letter and freight bill covering shipment powder, Lynchburg to Gladstone, charged at a minimum rate of \$2.

Please have the rate corrected to the basis agreed upon recently, viz.: Double first-class 100 pounds minimum weight, advising me when the amount is refunded, and oblige,

J. C. HILL,  
*Commissioner.*

NOTE.—All claims to be settled on the basis of classification adopted by agreement, E. D. H. verbally with J. C. H.

RICHMOND, VA., DECEMBER 11, 1891.

General J. C. HILL,

*Railroad Commissioner:*

We hereby call your attention to the fact that the B. & O. R. R. fails to connect at Staunton with C. & O. R. R. train at 1 o'clock P. M. by nine minutes only.

This is exceedingly annoying to the traveling public.

Will you kindly look into the matter and have it corrected as soon as possible.

Yours very truly,

M. L. WALTON.  
THOS. K. HARNSBERGER.

RICHMOND, VA., DECEMBER 12, 1891.

Mr. J. T. ODELL,

*General Manager B. & O. R. R., Baltimore, Md.:*

DEAR SIR:

B. & O. and C. & O. connections at Staunton.

Inviting attention to this matter, I notice from your last schedule, No. 3, that B. & O. train No. 413 south bound arrives at Staunton at 1:49 P. M., eight minutes after the leaving time of C. & O. train east bound, No. 6, 1:41 P. M., which delays passengers from the Valley for Richmond and points on the C. & O. railway for twelve hours at Staunton.

The south and east bound schedules should be changed so this connection would be made, and if you could throw back the schedule of your train, No. 416, now arriving at Staunton north bound at 12:20 P. M., C. & O. train No. 5, now arriving at 2:40 P. M., could probably be changed to connect therewith, thus giving a close day connection west and north bound from Richmond.

Kindly take the matter up with the general manager of the C. & O. R. R., and advise me what arrangement can be made as early as practicable, and oblige,

Yours respectfully,

J. C. HILL,  
*Commissioner.*

DEAR SIR:

B. & O. and C. & O. connections at Staunton.

Referring to this matter, I send you herewith copy of letter I have to-day written Mr. Odell, general manager B. & O. R. R., regarding this connection.

I will be glad if you will as early as practicable arrange the matter, advising me, and oblige,

HINTON, DECEMBER 19, 1891.

General J. C. HILL,  
*Commissioner:*

DEAR SIR:

Replying to your letter of the 12th inst. respecting the Baltimore and Ohio railroad connection at Staunton, it seems useless for us to continue changing our schedule to meet the time of the Baltimore and Ohio trains, when the connection does not last more than two or three weeks at a time. You will notice, on the last change we scheduled our No. 6 to pass Staunton at 1:41 P. M., in order to connect with the Baltimore and Ohio train No. 413, which was then due at 1:41. On their recent time table they have scheduled this train to arrive at Staunton at 1:49. They gave us no advice of the proposed change. You will also notice that on the last time table we changed our No. 7 to pass Staunton at 7:17 A. M., in order to connect with Baltimore and Ohio trains 418 and 441, due at the same time. They have ~~since~~ changed these trains to pass Staunton at 7:04.

As regards the connection between No. 5 and Baltimore and Ohio trains, we cannot possibly make up the two hours between Richmond and Staunton; but we will agree to do our part towards making this connection; although to arrive at Staunton an hour sooner with this train involves missing the Virginia Midland connection at Charlottesville at 12:50 P. M.

Yours truly,

G. W. STEVENS,  
*General Manager.*

WINCHESTER, VA., DECEMBER 16, 1891.

Subject: B. & O. and C. & O. connection at Staunton.

Mr. ALFRED WALTER,

*General Superintendent:*

DEAR SIR:

Referring to the attached papers in reference to our train No. 413 making connection with C. & O. at Staunton by reducing the margin time at Harrisonburg, and reducing the margin time with 416 at Mt. Crawford, and quickening the speed between Harrisonburg and Staunton, I can make up nine minutes on the run to Staunton, which will bring 413 at Staunton at 1:40 P. M.

I think that the C. & O. should give a little towards this connection, as well as ourselves. On the last change of time table, 413 reaches Staunton later than on previous time table, and C. & O. changed their time to arrive there earlier, and the result is we have no connection. Regarding train 416, referred to by General Hill, as I understand it, he desires us to hold 416 back, so as to reach Staunton about 2:40 P. M., making close connection with C. & O. No. 5. This would be impossible, unless you want to break connection with No. 16 at Harper's Ferry. To connect closely with C. & O. No. 5 at Staunton at 2:40 P. M., would not give us time to make run from Staunton to Harper's Ferry, to connect with No. 16.

It will not be necessary to make an entire change of time table, but simply issue a supplement to time table of Valley railroad of Virginia on page 5.

Will you kindly advise if I shall go ahead with the change?

Yours respectfully,

THOS. PRINCE,  
*Superintendent.*

Mr. D. F. MARONEY,

*Superintendent C. S.:*

DEAR SIR:

Replying to yours December 14th, with enclosed correspondence, I give you herewith letter enclosed from Superintendent Prince, which fully explains the matter. You will note that the best we can do with train 413 is to take up nine minutes.

I do not think we should miss connection with train 16 at Harper's Ferry in order to make connection at Staunton with a foreign road—the C. & O.

Very respectfully,

ALFRED WALTER,  
*General Superintendent.*

Connection with Ches. &amp; Ohio at Staunton.

General J. C. HILL,

*Railroad Commissioner, Richmond, Va.:*

DEAR SIR:

I herewith hand you all correspondence on the question of connection at Staunton with the Ches. & Ohio R'y.

We cannot do very much without breaking our main line connection at Harper's Ferry.

Please read Superintendent Prince's letter, and advise me if his suggestions are satisfactory.

Mr. G. W. STEVENS,

*General Manager C. & O. R. R., City:*

DEAR SIR:

B. &amp; O. and C. &amp; O. connection at Staunton.

Referring to your letter of the 19th instant, pertaining to this matter. Mr. Odell, general manager of the B. & O. road, will quicken the time of his south-bound train, No. 413, bringing it to Staunton at 1:40 P. M. Whenever delayed, I have suggested that he arrange to give the necessary notice by telegraph when there be passengers for C. & O. points. Will you therefore give such instructions as will insure this connection?

Yours respectfully,

J. C. HILL,  
*Commissioner.*

RICHMOND, VA., DECEMBER 30, 1891.

Mr. J. T. ODELL,

*General Manager B. & O. R. R., Baltimore, Md.:*

DEAR SIR:

B. &amp; O. and C. &amp; O. connections at Staunton.

Referring to your letter of the 23d instant, with correspondence pertaining to this matter. If you will revise your schedule of train No. 413 so as to arrive at Staunton at 1:40 P. M., nine minutes earlier than now, this will be satisfactory for the time being. I will request the general manager of the C. & O. road to hold his train at Staunton for this connection, and I think it would be well to arrange a system of telegraphic advices when your train is delayed and has passengers for points on the Chesapeake and Ohio road so they will make the connection.

Please advise me when the new schedule can be put into effect.

Yours respectfully,

Mr. J. T. ODELL,

*General Manager B. & O. R. R., Baltimore, Md.:*

DEAR SIR:

B. & O. and C. & O. connections at Staunton.

Referring to my letter of December 30th, pertaining to this matter. It is necessary that this connection at Staunton be arranged and without further delay.

I have had a talk with Mr. Stevens, general manager C. & O. road, to-day, and he is willing to hold his train leaving Lexington at 8:36 P. M. until 8:44 P. M., dividing the difference, sixteen minutes, with you as now existing.

Please give the matter prompt attention and let me know when the new schedule can be put in force.

Yours respectfully,

*Railroad Commissioner of Virginia, Richmond, Va.:*

DEAR SIR:

Connection with C. & O. at Staunton.

I enclose herewith copy of supplement No. 1 to time table No. 3, Valley division and Valley railroad of Virginia, which took effect yesterday, the 17th instant. Referring to your letter of January 11th, does this not meet changes desired? You will note that our train 417 reaches East Lexington at 8:36, and has a margin of eight minutes at that point. The other changes suggested in previous correspondence of January 1st has been made, as you will note.

Yours truly,

ATTORNEY-GENERAL,  
*State of Virginia, Richmond, Va.:*

DEAR SIR:

I beg leave to call your attention to the enclosed copy of a letter this day addressed by me to the president of the Norfolk and Western railway, which explains itself.

I trust that if in the province of your office to take legal action in the matter, that you will lose no time in doing so and compel the officials of the City Point branch of the N. & W. railway to replace the rotten ties and worn rails, and thus put this road in a safe condition for travel and traffic.

Very truly yours,

ROBT. C. LOWRY.

---

NEW YORK, FEBRUARY 19, 1892.

F. J. KIMBALL, *Esq.*,  
*Pres. N. & W. R'y Co., 338 Walnut St., Philadelphia, Penn.:*

DEAR SIR:

I feel it my duty to call your attention to the frightful condition of the rails and road-bed on the City Point branch of the N. & W. railway. I chanced to be in City Point on Tuesday last, February 16th, and took the trouble to make a personal examination of said road-bed for a distance of about a mile and a half outside of City Point. I found almost all of the ties in an absolutely rotten condition—so rotten that they could be kicked to pieces without any trouble, and I actually pulled some pieces of the rotten wood out of them with my hands, which I will keep safely for future use. Now, Mr. Kimball, this state of affairs is sure to result in a frightful accident and loss of life, and if anybody is killed before the road is repaired, you and the officials of your road will be guilty of manslaughter, to put it mildly.

I have therefore the honor to inform you that I have taken such measures as will cause the knowledge of such an accident to be conveyed to me at once, and if any one is injured or killed, prior to the time the road is put in proper repair, I shall make it my personal duty to appear before the grand jury of Prince George county, Virginia, and have the officials of the N. & W. road indicted for manslaughter and dealt with according to law.

I am informed that no attention whatever has been paid to the petitions pertaining to this subject, which have been forwarded to the officials of the N. & W.

railway by the citizens of City Point, Va., and as I expect to travel over that road from time to time for the next few months, you may be certain of my action without fail as above described.

I would further notify you that I have this day addressed letters to the Attorney-General of the State of Virginia, to State Senator Kent, and to the District Attorney of Prince George county on this subject, and have forwarded each of them a copy of this letter to be filed for future use. It is scarcely necessary to mention the affect that the reading of this letter and the production of the rotten sample pieces of the wooden ties will have upon a jury in case of an accident on that branch of your road.

All of which is respectfully submitted.

Very truly yours,

ROBERT C. LOWRY.

NEW YORK, FEBRUARY 24, 1892.

J. C. HILL, *Esq.*,*Railway Commissioner, Commonwealth of Virginia, Richmond, Va.:*

DEAR SIR:

Your courteous favor of the 23d has my attention, and perhaps it may be well to convey to you some further information as to the condition of the road-bed of the City Point branch of the Norfolk and Western railway.

I happened to be at City Point, aboard my yacht, on Tuesday, February 16th, and there having been a wreck on the line of that road, about a mile or a mile and a-half outside of City Point, I walked out there, over the road-bed, in order to see the smash up.

Said wreck was caused by a break of the trucks of a freight car, loaded with 45,000 lbs. of railroad ties. Of course, in walking over the road-bed, it did not take me many minutes to see for myself the shockingly rotten condition of the ties, and the worn-out condition of the rails. I may safely say that there was not 25 per cent. of the ties that were really sound. The ends of many of them could easily be kicked to pieces, and torn to pieces by hand.

I found five rotten ties in a row, and pulled up some pieces of the rotten wood with my hands, which I have in this office for future use. The flanges of the rails were badly worn, and the ends of the rails at the joints were, in many instances, all smashed up and worn out, which two circumstances together, caused the wreck above referred to. The wheels of the car, in passing over the worn-out joint of a rotten tie, made such a tremendous jolt, that it made the iron work in the truck break all to pieces.

Of course I made some forcible remarks to both the engineer and the conductor of the train, and they both, without attempting to deny the facts referred to, stated that "they were merely employees, and had nothing to say."

I also talked over the matter with some parties at City Point, and was informed that there had been petitions sent from there asking that the road-bed be put in a safe condition. One of the petitions, signed by the ladies of City Point, was especially mentioned, and I was also informed that the only result of said petition was some little repairs were made on the bridges, and that the road master, or some other official of the road, had ridden over the road, and in a most bullying manner had informed the people that the road-bed was "all right because he said so, and he knew whether it was or not." He probably had orders to make the report.

If your commission will take the trouble to run down to City Point, and walk about a mile or so along the track, outside of City Point, you will find that every word that I have stated is verified.

If the railway people themselves make the examination, you probably will find every word denied by them.

I have already had a letter from one of the directors of the road, a president of one of the banks at Norfolk, undertaking to state that he does not believe my unverified statements, and thus shows an indisposition of said director to do his duty, and to put the road in proper and safe repair.

My interest in the affair is not only from a sense of duty, but because I may have to ride over the road en route to and from my yacht, and I most decidedly object to risking my life and limbs in riding over a road with such rotten ties and worn-out rails.

Very truly yours,

ROBERT C. LOWRY.

ROANOKE, VA., FEBRUARY 25, 1892.

Gen. J. C. HILL,

*Railroad Commissioner, Richmond, Va.:*

DEAR SIR:

Your reference of February 23rd, with enclosures relative to the present physical condition of the City Point branch has been received.

Our service on the City Point branch is very light, being principally local business from Petersburg to City Point in connection with the Old Dominion Steamship company, and wood to be shipped in cargo from City Point to eastern cities, all handled by special service. The passenger service on this road is simply one train each way a day except Sunday. The speed does not exceed at any time fifteen miles per hour. We know perfectly well the condition of this branch. The rails are mainly old rails that have been on the road for a long while, and a good many of them are short "U" rails with chair joints. We examine and watch this branch very carefully, and my latest reports, only last month, indicate that the line is entirely safe in every particular, though it is not in as good condition as I would like to see it, or our main line. We have had it on our books for a couple of years past to re-lay this line with good steel rail, but as you know, the times have not been propitious for the expenditure, and as long as the road is in safe condition, we have to be satisfied. If we can we will, naturally, put the road in good shape during this year. Of course it is a matter of record with us that the City Point branch is handled in such a careful manner that we have no trouble there whatsoever, and no trains are derailed and no persons injured.

If I can give you any further information in this matter I will be very glad to do it, and hope that you will send me promptly your report after you have the road examined.

Yours truly,

JOSEPH H. SANDS,  
*Vice-President and General Manager.*

DEAR SIR:

Examination physical condition City Point branch N. & W. R. R.

I wish you would read the within correspondence carefully, and as soon as practicable make a careful examination of the City Point branch of the N. & W. R. R., the condition of the track, bridges, &c., and advise me as to its safety at this present time, and what immediate repairs are necessary to ensure avoidance of accidents to persons and property.

Please return the enclosed papers with your report, and oblige,

Gen. JAMES C HILL,

*Railroad Commissioner, Richmond, Va.:*

DEAR SIR:

Your instructions of yesterday just received, and I will endeavor to secure a hand car and make the examination as desired, on Monday and Tuesday next. Will probably be able to report to you in person by Thursday.

Yours respectfully,

F. P. LEAVENWORTH.

CITY POINT, MARCH, 1892.

General JAMES C. HILL,

*Railroad Commissioner, Richmond, Va.:*

DEAR SIR:

In accordance with your instructions of February 26th, I examined the City Point branch of the N. & W. R. R. on the 3d instant, going by the regular 8:45 A. M. train from Petersburg, and walking back on the track the whole way. My house on the river is in sight of City Point; the railroad is my ordinary summer route to Petersburg. I have been familiar with the road since 1844, and have observed with concern its deterioration. The statements in Mr. R. C. Lowry's letters of February 19th to President J. F. Kimball and February 24th to yourself as to the condition of ties and rails, are true to the letter and figure; but Mr. Lowry's walk of "a mile and a half outside of City Point" did not take him over the worst or most neglected portion of the line; in fact, this branch seems to be the catchall for worn-out material from the rest of the company's lines. Iron of different patterns and weights, from 44 to 56 pounds, fish-bars, cast chairs, wrought chairs, broken chairs, no chairs at all, fragments of rail as short as six and eight feet and all worn and battered, the ends crushed down from one-fourth to half an inch; long, rough splinters splitting from the tread. The ties are equally as bad as the rail, old and decayed, and yet not twelve per cent. have been renewed since the change of gauge, as evidenced by the old spike holes. On one stretch between bridges 44 and 42 I counted 24 ties which had rotted off outside of the rail, and picked several spikes out of them with finger and thumb. This was in the worst part of the road. West of Friend's dwelling-house to Petersburg ties and rail are of much better quality and in fair order, although decayed ties are found in considerable numbers even opposite the site of the Norfolk and Petersburg roundhouse. The culverts and bridges are in good order, having lately been repaired and new bents and other timbers supplied where needed. The ditches were hardly in passable order; indeed, the section master could not be expected to do much on nine and a half miles of such track (including the City Point yard) with three hands and a track walker. In one place an eight-inch pine pole with the bark on, cut from the side of the road, and made to do duty for a tie in the lack of proper material, showed that the section master was not in fault. Every one of the 115 oak ties lately thrown off for repair, and now lying by the track, has been used elsewhere before.

As to the service on the road, I enclose a printed slip which is still published in the Daily Index, which names five other trains per week more than Mr. Sands

mentions, and I have myself traveled on two others—namely, those leaving Petersburg on Monday and Friday at 6:30 A. M. to meet the New York steamer and return before 8:45 A. M. All these trains are “mixed,” carrying a composite passenger car in the rear. Safety on this branch is sought by a “45-minute schedule,” although we were 52 minutes in making it from platform to platform, using No. 63, which is one of the lightest engines in use on the N. & W. R. R.

Large quantities of oak, black walnut, ash and poplar logs from West Virginia have been shipped from City Point within a few years past, and yesterday I found the barge Vidette, Captain E. Long, discharging 840 tons of pebble phosphate for Petersburg. From my windows I can see the wharf, never entirely destitute of vessels, and would regret to believe that the river commerce to City Point had dwindled to nothing.

The road needs 25 per cent. of new oak ties at once and six miles of new steel rail, with double the present force of section hands until the ditches and track are gotten in good order.

I enclose a copy of notes taken yesterday on the track, which can be used to verify the statement above. This branch is not supplied with mile-posts or other monuments of distance, and I have used the road crossings and bridges to identify the points specially referred to in this report.

I return also the (five) enclosures received from you February 26th.

Respectfully your obedient servant,

FREDERICK P. LEAVENWORTH,  
*Engineer.*

Gen. JAMES C. HILL,  
*Railroad Commissioner:*

DEAR SIR:

I enclose copy of original memorandum on physical examination of City Point branch of N. & W. R. R., accidentally omitted from last Thursday's envelope.

Very truly yours,

FREDERICK P. LEAVENWORTH.

*Notes on physical examination of City Point branch of N. & W. R. R., March 3, 1892.*

At City Point, where section master had 3 hands at work servicing track and switch just north of bridge No. 48. All the switch ties old, the ends more or less decayed. T iron 56 lbs. to yard, broken and mashed at the ends. Joint-ties going west appeared to be sound and not so old as the rest.

At Corner's crossing, near the scene of the accident to which Mr. Lowry referred, going east from the crossing, 22 unsound ties in 100, the iron broken and ragged, the ends mashed down, odd lengths of rail, ties 2½ feet between centers. At Tinsley's crossing City Point, county road, going east to whistle post, 258 sound ties out of 422; going west counted 12 old and decayed ties together some with two deep rail beds on them. Between Cat Tail culvert and Knox's crossing, no new ties, all old and much decayed; *three* second hand ties dumped for use, and three sound ties lately put in 100 yards west of crossing, and 48 ties just dumped

at Knox's, 200 yards west of Knox's crossing some rails with cast, some with wrought chairs, no fish-bar, and a hand car siding where is a 8 pine pole with bark on put in for a tie. In 100 ties west of this, 29 sound ones.

At Woodlawn (Battis) crossing, 40 sound ties in 100. At Cedar Level main City Point, county road crossing going west, 200 new sound ties out of 382. Bridge No. 45 just west of half-way house, 3 bents in good order, going west 38 sound ties out of 100, chairs of three patterns, and none, some fish-bar, some rails sunk in the old ties flush with the top on the outside. Ditches on Perkinson's land one rod from track centre. At Shand's farm road crossing, rail is 12 feet in length, say 44 lbs to yard, bent and all battered at the ends. In "Frozen Island" 64 ties dropped for use, going west from place of old crossing, 18 sound ties in 100, approaching Rocky Hill crossing of county road 49 sound ties in 121. From crossing to bridge No. 44, 31 sound ties out of 51. Bridge No. 44 of 5 trestle bents in good order, recently repaired; going west 152 sound ties in 200. From first whistle-post west of bridge 44, 16 per cent of ties have been laid since change of gauge, and 25 out of 200 are new and sound. Thence to a rock culvert near a spring in P. Batte's counted 19 ties rotted off and several spikes lifted with the finger. In a side hill cut under Batte's wire fence a 6 piece of light rail, no chair or fish-bars, at east end, 27 broken ties to bridge No. 43. From Friend's farm road crossing west, fair 30 rail and fish-bars to second crossing where 40 per cent sound ties to bridge No. 42 recently overhauled in good order with 1 new bent (9 bents in all); thence west, fair rail, and 52 per cent good ties. This section ends at Bland's factory in Petersburg.

DEAR SIR:

Your favor of the 8th in the matter of complaint physical condition of the City Point branch, has been received and noted.

I will refer this letter to the proper parties for a further examination as to the condition of the cross-ties. As far as the rails are concerned, they are perfectly safe for the speed, and we are willing to assume the responsibility in connection

with the same. The cross-ties undoubtedly should be in good condition, and I will examine into this and will advise you further.

ROANOKE, VA., MARCH 19, 1892.

General J. C. HILL,  
*Railroad Commissioner, Richmond, Va.:*

DEAR SIR:

I herewith beg to hand you copy of report made to Mr. Flickwir, general superintendent of our eastern division, by Mr. E. L. DuBarry, superintendent Norfolk division (of which the City Point branch is a part) in connection with the condition of this latter branch.

When the season opens we will give attention to the City Point branch and arrange to have its reasonable requirements carried out.

Yours truly,

FRANK HUGER,  
*For Vice-President and General Manager.*

CREWE, VA., MARCH 11, 1892.

D. W. FLICKWIR, *Esq.*,  
*General Superintendent:*

DEAR SIR:

Further referring to your favor of the 9th inst. and the accompanying papers in relation to the report made to the Railroad Commissioner by Major Leavenworth, engineer, on City Point branch.

This morning I went to City Point on the 8:45 train, reached there at 9:50; after looking around the station and the wharf, I started with Supervisor Sowers and walked over the track to Petersburg, making a personal and critical examination of the same.

Mr. Leavenworth in his report is in error when he says the City Point branch seems to be the "catch-all" for worn-out material from the rest of the company's line. He is correct when he states that there are iron of different patterns and weights, varying from 44 to 56 lbs. He omits to state, however, that there is nearly two miles of 52-lb. steel rail. He is correct when he states that there are fish-bars, cast chairs, wrought chairs, broken chairs, and no chairs at all. The shortest piece of rail that I found in the City Point branch was four feet. It was a good piece of rail and well secured on good ties. There are some pieces varying from six, ten, and twelve feet; a large portion of the iron rail is about 22 feet. The rail shows service—hard wear—some of it pretty badly worn, and has been so for years. I see very little difference in the rail to-day and what it was three years ago. You know that a rail set in a cast or wrought chair will mash at the ends, and such is the case, but in no instance did I find a rail mashed and battered to the extent of one-half inch at the end. There is very little of the rail very badly worn, showing rough splinters splitting from the tread. You understand

how iron rail wears, it flattens off, but I do not think that there is a piece of rail in the City Point branch which is unsafe to run over to-day; that is to say, to run over at the speed which trains are allowed to run on that branch. The ties as a rule are not equally as bad as the rail, nor are they old and decayed. I did not go into the examination of what percentage had been renewed since the change of gauge, for that would have no bearing in the case. There are cypress ties that have been in there I know, six years, and are as good to-day as when they were put in, and will last six years longer.

I cannot say that the ditching is in good condition, but it is in better condition than it ever has been since I have been on the road. There was in one place a piece of pine (a young tree), which had been used as a make-shift for a cross-tie, but it was good and sound.

Mr. Leavenworth notes that 115 oak ties, lately thrown off for repairs and now lying by the track, had been used elsewhere before. This is correct, except as to numbers. There were 190 of them originally, and they were perfectly sound ties. They came from the siding at Wynkoop's quarry, which you know never had a train over it, except the work train to take the material down and lay the track, and afterwards to go down and take it up. The ties were perfectly sound, and as good as new. We run over the road the following trains:

Leave Petersburg at 6:30 A. M. Monday, and return with the Old Dominion freight as soon as it is loaded; then leave Petersburg at 8:45 A. M., and make connection with the James river steamer, and return to Petersburg.

On Tuesday we leave Petersburg at 8:45 A. M. and return about 11 A. M.; leave again at 6 P. M., and return as soon as the freight at City Point is loaded.

On Wednesday we leave Petersburg at 8:45 A. M. and return at 11 A. M.

On Thursday we leave Petersburg at 8:45 A. M., and return at 11 A. M., and leave again at 1 P. M., and return as soon as the freight is loaded at City Point.

Friday we leave Petersburg at 6:30 A. M., and return from City Point as soon as the Old Dominion freight is loaded. Leave here again at 8:45 A. M. and return at 11 A. M., and leave at 6 P. M., and return as soon as the freight is loaded at City Point.

On Saturday we leave at 8:45 A. M., and return at 11 A. M.; leave at 1 P. M., and return as soon as the freight is loaded at City Point.

These trains are required to consume forty-five minutes between Petersburg and City Point, and *vice versa*. The day which Mr. Leavenworth refers to, he says they were fifty-two minutes in making it. That may have been an unusually heavy train, and they proceeded with the usual care in descending the grade into City Point. Engine 63 is used to haul this train and it is a light engine.

If large quantities of oak, black walnut, ash, and popular logs from West Virginia have been shipped from City Point, I do not know it. Very little goes from City Point except Old Dominion freight, cord wood and cross-ties. It is true that a vessel with Florida phosphate reached City Point last month loaded with phosphate rock for Davie & Whittle, at Petersburg, and we hauled that from City Point to Petersburg, and it is the first of this character of freight we have ever had.

For your special information I followed as closely as possible the examination made by Major Leavenworth, commencing for this purpose at City Point. His first notation as the section man and three hands at work, is correct. That is the force (with the track-walker) that is allowed on the City Point branch.

The switch referred to in Major Leavenworth's report, had five bad switch ties, only two of which were really necessary to be removed at an early date. The rail

is known as the Norfolk rail (iron) about 56 pounds to the yard, and is pretty well worn; it is mashed a little at the ends, but nothing to endanger an engine or a car passing safely over it. From City Point to a mile and half this side of there, there are 166 decayed and broken ties.

From Comer's crossing to a point two miles this side of City Point I found but fifty-one decayed cross-ties, or cross-ties broken, and which I would remove. This, bear in mind, is every bad cross-tie from City Point for two miles. The iron is a little rough and the ends a little mashed down, as one must expect with wrought or cast chairs; odd lengths of rail, one piece I have measured was seven feet—from that to twenty-two feet. Ties, some of them were two and a half feet from centre to centre, which is nothing unusual on a branch road.

From a point two miles this side of City Point to Tinsley's crossing I found forty-two ties either decayed or broken, and they will be removed in proper time.

From Tinsley's crossing to Cat-Tail culvert I found fifty-four decayed or broken ties. Major Leavenworth says he found 258 sound ties out of 422. I found between the same point designated by Major Leavenworth but fifty-two bad cross-ties, and in no place did I find twelve bad ties together.

Between Cat-Tail culvert and Knox's crossing I found 250 decayed and broken ties. Mr. Leavenworth notes some of the rail with cast, some with wrought chairs, and no fish bars. This is correct of all the City Point road, excepting where we have the two miles of steel. We have "U" rail, little "T," we have every variety, and we have wrought chairs, cast chairs, "U" rail chairs, in fact, all kinds to fit the rail that is in the track. Mr. Leavenworth notes at Woodlawn (Batte's) crossing 40 cross-ties in 100. I only found 10.

From Batte's crossing to Cedar Level crossing I found 114 decayed and broken ties. From Cedar Level to bridge 45 I found 145 cross-ties decayed and broken. At no place did I find the rail sunk in the old ties flush with the top on the outside.

The ditches in Perkinson's lands were nine feet from the centre of our track.

In the neighborhood of Shandy's farm crossing it is a 44 lb. rail, and some of it was 10 and 12 feet long.

From bridge 45 to Shandy's road crossing, 201 cross-ties decayed and broken. From Shandy's crossing to Rocky Mount crossing, 506 cross-ties decayed and broken. From bridge 44 to Batte's spring, 172 broken and decayed ties. In the side hill cut referred to by Mr. Leavenworth, I found two pieces of rail together. One had a splice bar securing it to the other rail, and the other piece was spiked, but the ties under this rail were sound and the rails were 7 and 8 feet long.

From Batte's spring to bridge 43 I found 28 decayed and broken cross-ties. From Friend's farm road crossing Mr. Leavenworth says fair 30 foot rail and fish-bars. The rail was the old Norfolk rail, 22 feet long. From bridge 43 to where the 52½ lb. steel commences I found 30 broken and decayed ties. From the commencement of the steel (52 lbs.) to bridge 42, I found 120 broken and decayed ties. From bridge 42 to the end of the City Point road at our connection near Mays Hill, I found 270 broken and decayed cross-ties.

I am satisfied that you will bear me out in the assertion that the City Point branch is to-day in a perfectly safe condition for the movement of traffic over it, not only the safety of the passengers, but the property entrusted to our charge. The rate of speed is such as to make it perfectly safe. The same men run the engine on this branch regularly, and they know every inch of it. True the City

Point branch is not in the condition that the main line is kept, nor is it expected to keep a branch line like the City Point in that condition. The rail, as shown by the report, is rough in some places, it is old, as you know, but it is sound; it is rough to those riding in the coach, owing to the fact that the joints are of every variety and pattern, wrought and cast, U and T rail, steel and iron, and it is an impossibility to have a smooth surface on such rail. The bridges are in condition to take a ten wheel engine to-day, and I would not hesitate to run one there if occasion required. The policing on this branch is not as good as I would like to have it, but the force allowed me will not permit of my going into policing and ditching to the extent that we do on our main line. I do maintain that the City Point branch is in perfectly safe condition for the transaction of business over it, but I will admit that it is not as smooth a piece of riding track as I have seen. From the personal examination, made with great care to-day, I counted but 2,169 cross-ties that are necessary to-day to remove—these decayed and broken ties. I did send to this branch a few weeks ago 190 cross-ties taken from Wynkoop's siding; they were new ties, had been in the track but a few months, and never had a train over them. I wanted these ties to renew as far as practicable the broken ties on the City Point branch. Supervisor Sowers accompanied me afoot on this trip, and he says that he found fewer cross-ties broken and decayed than he expected to find. We went over it very slowly and examined each tie as we came to it, and I am satisfied that if a critical examination were made by one experienced in such matters, that they would furnish the same result as to cross-ties as I have done in this report. These ties will go in when I am authorized to put in ties this year. I made my estimate for cross-ties for this branch, and when it is allowed the ties will be put in; but I do not think that it is of such importance as to require their being put in immediately. This is no season to put in cross-ties, a cross-tie should only be put in now when absolutely necessary.

Major Leavenworth says that we want six miles of new rail.

You know that I have recommended that we renew the City Point branch with fit 52½ lbs. steel. Not that I consider it unsafe, but I think that it would give better satisfaction, and enable us to maintain the branch for less money than it would with the old iron now in. Had I considered this track unsafe sir, I would have appealed to you for aid before anybody would have an opportunity to make complaints.

There being no mile-posts on the City Point branch I was unable to make my locations by mile-posts, as I would otherwise have done.

Very respectfully,

EDMUND L. DeBARRY,  
*Sup't Norfolk Division.*

DEAR SIR:

Physical examination City Point branch, N. & W. R. R.

I send you herewith for examination all correspondence pertaining to this matter.

---

Please note the report of the Superintendent of the Norfolk division of the N. & W. road to the General Superintendent. As I understand, the ties will be replaced as early as practicable after the season will permit.

Do you consider the road safe under the present conditions and train service until that time?

When the repairs are made I will want you to examine the road again. Please return all papers.

Yours respectfully,

J. C. HILL,  
*Commissioner.*

---

PETERSBURG, VA., APRIL 11, 1892.

General J. C. HILL,

*Railroad Commissioner, Richmond, Va.:*

DEAR SIR:

In accordance with your instructions, I have read the papers, and also again examined the west half of the City Point branch. The condition of this branch is so bad as to render it imperative to reduce the speed of trains to about one mile in five minutes. An increase of this rate, any where east of Friend's crossing (where the 30 lb. steel rail from Petersburg terminates), would imperil the safety of passengers upon the present track. If the Commissioner is willing to regard a 45-minute schedule for 9½ miles of fairly level country as a proper rate of speed, I am of opinion that light trains may run without casualties, but casualties when they do occur will be much complicated by the decayed condition of the ties, and broken and battered iron, and the company should be held to a strict account for them.

The report of 11th March by the Superintendent of the Norfolk division shows that the officials of the road have largely increased their knowledge of the condition and service of this branch since the letter of February 25th to you from the General Manager.

Neither the people of Prince George and Petersburg, who procured the act of incorporation in December, 1835, nor the State authorities who in 1838 contributed \$20,000 to its completion, contemplated the deterioration of this public work to its present condition of neglect and decay. I find that a very large cargo of walnut logs was shipped here for the English steamship Jeddo in June, 1885, and about that date I saw cargoes of zinc ore from the mountain mines shipped at a point just north of the depot. This business may have been transferred to other points for cause, but the track is in no condition to safely bear swift heavy freights. The people who constructed this branch, and conveyed it to the A. M. & O. R. R. Co. are not satisfied with its present condition, and their written remonstrance of December 14th last to the officials of the N. & W. R. R. Co. remains without reply.

I enclose memorandum of additional notes made April 2d upon the track, and all papers.

Very respectfully, your obedient servant,

F. P. LEAVENWORTH,  
*Engineer.*

*Memoranda made April 2, 1892, from Batte's Crossing, westward, on City Point Branch  
Norfolk and Western Railroad.*

- 100 { 30 ties out of the first hundred decayed.  
33 ties new, laid since June 1, 1886.  
The twentieth and thirty-fifth ties cut into two by rail.
- 200 { 51 ties out of the second hundred decayed.  
10 ties new, laid since June 1, 1886.  
Lifted spike out of chair in ninety-third tie with finger.  
Eighty-first to ninety-second ties, inclusive, decayed.
- 300 { 29 ties in the third hundred decayed.  
32 ties new, laid since June 1, 1886.  
Second, twenty-third, twenty-fourth, thirty-second, forty-third, and sixty-first rails and chairs sunken.
- 400 { 25 ties in fourth hundred decayed.  
7 ties new.  
Forty-first tie, took out spike with fingers.  
Fifty-first tie above top of hook of wrought chair.  
Sixty-first tie above top of hook.
- 500 { 21 ties decayed in fifth hundred.  
32 new ties in fifth hundred.  
Twelfth, twentieth, and twenty-fourth ties have rails and chairs sunken in them half depth.  
Fourteenth tie, took out spike with fingers.

The thirty-eighth tie east of a granite-faced pipe drain in Farmingdell, took up spikes with finger, and west of this culvert rail badly battered, and twenty-fourth, twenty-sixth, and twenty-eighth ties have rail sunken. Weight of rail changes near here going west, and a fish bar laid crossways to equalize difference in height. The twelfth tie west of this has spikes drawn with the finger; the forty-third no spikes. I find to-day 145 decayed ties from Cedar Level crossing to bridge 45. West from the crossing the one hundredth tie has a chair flush in it under north rail; so the ninety-ninth; 24 ties were decayed and 35 new in this 100.

In the second hundred ties westward 30 were new, 39 badly decayed. The sixteenth had its spikes drawn with the finger.

In the third hundred, 65 new ties, 23 decayed, a cast chair sunk flush in forty-sixth tie, north side.

In the fourth hundred, 28 new, 18 decayed.

In the fifth hundred, 29 new, 29 decayed; the twenty-seventh tie is flush with the rail.

At Half-way House N. rail is 3 in. high; S. rail is 4½ in. high. U rail battered ½ in. on ends. Ditches from bridge to old Quarter-house, 16½ in. from track centre. One hundred feet west of Shand's crossing, 17 bad ties together on a curve, some without any spikes. I note 55 old ties removed lately at west end of cut in Frozen Island.

From Rocky Hill branch 204 ties decayed to one flush with rail; two hundred and sixteenth, two hundred and seventeenth, two hundred and eighteenth, no spikes on outer curve; two hundred and forty-eighth flush with fish bar bolts in decayed cypress on largest in cut, and 278 decayed to culvert, and 284 in all decayed to Batte's spring; and from Batte's spring to bridge 43, 53 decayed ties.

In Friend's farm, at both crossings, April 2, measured steel rail 30 feet long, probably 52 lbs. to yard, fair rail to Petersburg.

DEAR SIR:

Physical condition City Point branch N. & W. R. R.

Referring further to this subject, your letter under date of the 19th ulto.

This matter has again been carefully examined by Maj. Leavenworth, our engineer, and the improvements that have been suggested are considered absolutely necessary for safe transportation of passengers over that portion of the road. I will be glad, therefore, if you will arrange to have made the necessary improvements with the least possible delay, and when finished notify me, and I will have the road examined again.

General J. C. HILL,  
*Railroad Commissioner, Richmond, Va.:*

MY DEAR SIR:

I received the enclosed petition by yesterday's mail with the request that I enclose same to you.

The location of new passenger station is about one mile west of the old station, and the streets leading to it have never been macadamized, and they are in bad condition; with more bad weather they would be impassable. Fully 95 per cent. of our population are greatly inconvenienced by the railroad thus far refusing even to make a flag stop at the old station. If you will come up and look into this matter I feel sure you will appreciate the injustice that is being done this community.

Yours very respectfully,

S. M. BOLLING.

RICHMOND, VA., DECEMBER 31, 1891.

*Bedford City, Va.:*

DEAR SIR:

Station facilities at Bedford.

Your letter of the 30th inst., with enclosed petition, relating to the N. & W. passenger station at Bedford, has been received and noted carefully.

I have to-day sent the papers to Mr. Sands, Vice-President of the N. & W. road for attention, and will advise you further in the matter when I have his reply.

Yours respectfully,

J. C. HILL,  
*Commissioner.*

Petition citizens Bedford City in reference to station facilities.

Respectfully referred to Mr. Jos. H. Sands, Vice-President N. & W. R. R., Roanoke, Va.

The within petition of the citizens of Bedford in reference to the station facilities for passengers at that point is referred for your attention.

The petition has been transmitted to me by the representative from Bedford in House of Delegates, and has requested early advices.

Will you therefore give the matter prompt attention.

J. C. HILL, Esq.,

*Railroad Commissioner, Richmond, Va.:*

DEAR SIR:

I have your favor of the 31st December enclosing petition from the citizens of Bedford City with regard to the new passenger station at that point.

This matter will have my attention, and I will advise you definitely later on as to what conclusions we arrive at.

Yours truly,

JOSEPH H. SANDS,

*Vice-President & General Manager.*

BEDFORD CITY, VA., JANUARY 15, 1892.

Gen. JAMES C. HILL,

*Railroad Commissioner:*

DEAR SIR:

From Mr. Bolling I learn that Mr. Sands proposes to lay before you some papers in reference to the location of the passenger station at Bedford City. I therefore desire to give the facts and circumstances under which a petition of citizens was obtained. A scheme was set on foot by the few interested in the organization of a land company to have the station located on their lands. This was kept from the public, and a petition circulated which I signed without suspicion or expectation that the officers of the railroad company would be so inconsiderate as to put the station anywhere except in proximity to the business centre of the town. My signature, and nearly all of those on the petition, were obtained by withholding from us the object had in view. This petition obtained in that way did not give their sanction to the present location. The first we knew of such intention was the arrival of the railroad officials here who were met in carriages by the land company people, driven to the site and a contract made before the citizens knew anything of it. It also comes within my knowledge that some of our citizens attempted to get up a protest before any work was done, but were told that it was too late, that the contract had been signed, &c. Mr. P. L. Terry was appealed to, to see Mr. Eddy, but was told the question was settled. Another fact I desire to mention is that the "Virginia Investment Company," controlled by the officers of the N. & W. R. R., hold \$10,000 of the stock of the land company *on whose property the station was located*. If you desire it we can send you a certificate to show how the signatures to the petition were obtained. Hoping you may help to secure this community the privilege of getting on the trains without so great inconvenience and loss of time. (It takes our mail 20 minutes now, instead 5 before to get to the P. O.)

I am, yours truly,

C. A. BOARD.

BEDFORD CITY, VA., JANUARY 15, 1892.

General J. C. HILL,

DEAR GENERAL:

I have heard through our representative, Mr. S. M. Bolling, that the petition sent you from this place had been referred to the railroad company

officials, and thinking that they might use a petition which was very numerously signed by the citizens of this place to mislead you, I will therefore try to give you some idea how that petition was obtained. I was one of the signers, and was requested to sign a petition to the railroad company for a fine passenger depot, as the company had expressed their willingness to do so if the citizens would petition for it, and the thought never occurred to me but that when they built it it would be built about the old depot, and when I found out that they had it in contemplation to move the depot so far away from all of the business interest, some of us remonstrated, but were told if we would wait until the proper time we would get a flag station, but that matters had gone too far not to build the new depot, and I have heard from a great many of the other signers, and the same representations had been made with the same result as with me.

We, the citizens, are suffering great inconvenience by the present arrangement, and wish very much that you would come up and see the condition of the matter, if you have any doubts on your mind what course you should pursue.

Very respectfully,

W. H. MCGHEE,

LYNCHBURG, VA., JANUARY 28, 1892.

Mr. J. C. HILL,

*Railroad Commissioner, Richmond, Va.:*

DEAR SIR:

Will you kindly inform me whether anything has as yet been done relative to the trains stopping at the old depot at Bedford City, instead of the new one, as has heretofore been the case.

Yours truly,

EDGAR FRANKLIN,

*Secretary.*

ROANOKE, VA., JANUARY 29, 1892.

JAMES C. HILL,

I have been so very busy that I have not been able to get the papers together. I will try to let you have them the early part of next week.

JOSEPH H. SANDS.

Mr. E. FRANKLIN,

*Secretary Board Trade, Lynchburg, Va.:*

DEAR SIR:

Station facilities at Bedford.

Acknowledging receipt of your letter of the 25th inst. Mr. Sands, Vice-President of the N. & W. road advises me to-day that definite advices will be given in the matter in the early part of next week, when I will advise you.

Yours respectfully,

Station facilities at Bedford, Va., N. & W. R. R.

Respectfully referred to Mr. R. Taylor Scott, Attorney-General.

I wish you would look over the within correspondence, which fully explains itself, and give me your opinion as to my jurisdiction in the matter complained of, returning me the papers as early as convenient, and oblige,

J. C. HILL,  
*Commissioner.*

RICHMOND, VA., FEBRUARY 23, 1892.

Respectfully returned to the commissioner of railroads.

In my opinion sections 1299, 1300, and 1301, Code of Virginia, 1887, confer upon you jurisdiction over the matters of complaint from Bedford city and Clifton Forge.

I do not think you should exercise this power on the demand of one or a few persons, the injury must be to the public, and the change you demand be reasonable, expedient, and necessary for the accommodation of the public.

R. TAYLOR SCOTT,  
*Attorney-General.*

RICHMOND, VA., FEBRUARY 24, 1892.

Mr. JOS. H. SANDS,

*Vice-President N. & W. R. R., Roanoke, Va.:*

DEAR SIR:

Station facilities at Bedford, N. & W. R. R.

Referring to your letter of May 2nd, and telegram of 29th in reference to this matter.

The demands of the public in this case appear to be reasonable, expedient, and necessary for their proper accommodation, and I shall be obliged if you will notify me what action the company proposes taking to remedy the complaints, and without further delay.

Yours respectfully,

J. C. HILL,  
*Commissioner.*

ROANOKE, VA., FEBRUARY 25, 1892.

General J. C. HILL,

*Railroad Commissioner, Richmond, Va.:*

DEAR SIR:

I must apologize to you for not having replied to you definitely with regard to the inquiry as to stopping our passenger trains at the freight station at Bedford for passengers.

First of all, I have been absent almost constantly, and have not been able to give the matter the attention it deserved. Then again, I have been endeavoring to find out whether it would be possible to carry out your wishes in the matter.

The more I go into the subject the more objections I find. You know the pres-

ent passenger station at Bedford was located with the knowledge and consent of parties at interest in Bedford, and practically upon a petition signed by them. The company has expended in this work between thirty and forty thousand dollars. Now, simply because matters in general are flat in Bedford, to abandon the use of our expensive station and go back to the old methods would not be good business, and we will, therefore, have to decline to make the extra stop with our passenger trains at the freight station.

Yours truly,

JOSEPH H. SANDS,  
*Vice-President and General Manager.*

Mr. JOS. H. SANDS,

*Vice-President N. & W. R. R., Roanoke, Va.:*

DEAR SIR:

Station facilities at Bedford, N. & W. R. R.

Receipt is acknowledged of your letter of the 25th inst., with reference to this matter.

Please return the petition from the Bedford citizens, sent with my letter of Dec. 31st, and oblige,

Gen. J. C. HILL,

*Railroad Commissioner, Richmond, Va.:*

DEAR SIR:

I have your favor of the 26th on the subject of station facilities at Bedford.

I return you herewith the petitions of the citizens of Bedford, relative to this matter, as you request.

Yours truly,

JOSEPH H. SANDS,

RICHMOND, VA., MARCH 11, 1892.

EDGAR FRANKLIN, *Esq.*,*Secretary Board of Trade, Lynchburg, Va.:*

DEAR SIR:

Your letter dated 8th inst. was held by Mr. Akers for my personal attention.

I have taken all the necessary steps to bring this matter to, I believe, a satisfactory conclusion, and from its inception have acted in thorough accord with the citizens of Bedford who are directly interested in its solution.

Yours truly,

J. C. HILL,  
*Commissioner.*

RICHMOND VA., MARCH 11, 1892.

JOS. H. SANDS, *Esq.*,*V. P. & General Manager N. & W. R. R., Roanoke, Va.:*

DEAR SIR:

Referring to our correspondence, and interview of yesterday, I have decided that it is my duty to require that at least one train, each way a day, stop at the old depot. As a satisfactory compromise, I would suggest that you stop at the old depot local trains, No. 17 west bound and No. 18 east bound. In the event that you do not concur in this proposition, please accept this as a notice that I will proceed as directed by sections 1299, 1300 and 1301, Code of Virginia.

Yours truly,

J. C. HILL,  
*Commissioner.*

BEDFORD CITY, VA., MARCH 11, 1892.

General J. C. HILL,

*Railroad Commissioner, Richmond, Va.:*

DEAR SIR:

Since you were here yesterday I have seen a number of our leading people, and they are opposed most strongly to any action looking to forcing the N. & W. R. R. Co. to stop its trains, or any of them, at the old depot. They are taken by surprise, and think no order should be made until they have an opportunity to be heard before you. This I stated to you yesterday, and you expressed a willingness to wait and hear both sides, but for the fact that Mr. Sands was to leave for Europe in a few days, and desired the question to be settled before he left. I would submit, however, that this would put us in the position of having your decision *against* us when it might be *for us* upon hearing our side and ascertaining what portion or proportion of the public preferred the present arrangement. I will not attempt now to repeat my arguments, but merely write to ascertain whether you will give us the opportunity to lay our side of the case before you before you make any order on the railroad company.

I readily acknowledge your intention to make a conservative order applicable to but two trains per day, but if the effect is to be the same as if the order was

applicable to all trains, thereby closing the new station, then the order is in effect most radical. Awaiting your answer, I am,

Very respectfully yours,

J. LAURENCE CAMPBELL.

ROANOKE, VA., MARCH 12, 1892.

General J. C. HILL,

*Railroad Commissioner, Richmond, Va.:*

DEAR SIR:

Your favor of March 11th has been received and carefully noted.

As I have already stated to you personally and officially, the company has determined to have but one passenger station in the town of Bedford. The new station that has been built is the one we propose to occupy and operate, and we will make no stops with any of our passenger trains at the old station.

I take it under this decision of ours you will proceed as directed by sections 1299, 1300, and 1301 of the Code of Virginia, and I beg to advise you the company will be prepared to protect its interest in the premises.

Yours truly,

JOSEPH H. SANDS,

*Vice-President and General Manager.*

LYNCHBURG, VA., MARCH 12, 1892.

General J. C. HILL,

*Railroad Commissioner, Richmond, Va.:*

DEAR SIR:

I have your favor of the 11th instant. I note your remark as to having acted in thorough accord with the citizens of Bedford. I am unaware of having made any intimation that your action in the case had been unsatisfactory to any one, but I wish distinctly to be placed on record with you now as opposed to the assumption that you seem to make, that it is a matter between yourself, the N. & W. road, and the citizens of Bedford. It is a matter between the citizens of Virginia, the public generally, and the railroad company; and as citizens of this State our Board requested your action.

Yours truly,

EDGAR FRANKLIN,

*Secretary.*

BEDFORD CITY, VA., MARCH 16, 1892.

Gen'l J. C. HILL,

*Richmond, Va.:*

DEAR GENERAL:

I understand you have been petitioned to require the N. & W. R. R. Co. to stop their passenger trains at the old depot, and that the authorities of the road say that if this is required by you they will have to close the new depot, as they cannot keep a double set of agents or clerks here. I beg to say a word on

this subject. Our people solicited the N. & W. to build a new depot here, and a petition for this purpose, most numerous signed, was forwarded to the company. The petition did not even suggest a site for the proposed depot, still less was it qualified by any restriction as to a site. On the contrary it was a fact voiced throughout the town, and well understood by everybody that the company had *declared it would not build* the depot on the site of the old. The authorities of the company received this petition, and in response to it came to Bedford City, were met by a delegation of citizens and conveyed to the various sites thought to be at all available. The present site was chosen, and after the lapse of some time the construction of the new depot was begun. True it is that as soon as the chosen site became known there were *kickers*. Still they did not manifest their opposition in any such decided form as to give the company any notice that there was any opposition at all. The company were some months in constructing the new depot, and the thing grew and took shape under the very noses of our people. They saw the liberal expenditure of money both upon the building and the grounds about it, and still kept silence. But so soon as the trains began to pass by the old station and stop at the new, there came mutterings and dissatisfactions loud and deep from some. I do not in any capacity represent the railroad, and never have done so, and am under no manner of obligations whatever to them or any other corporations, but prompted purely by a spirit of fair dealing, it does seem to me that this faction of Bedford who are making this row, are estopped from any active objection to the present management, and that it would be an outrage upon the railroad company, and opposed to all conscience and equity for this communication to be countenanced in any step that would practically close or do away with the new depot. The old one furnishes no adequate accommodations to the public, and it would be difficult, by any improvements put upon the old, to render it even a safe station for passengers to get off and on. In conclusion I trust you will not heed this senseless clamor.

Very truly and respectfully,

E. P. GOGGIN.

General J. C. HILL,

*Office Railway Commissioner, Richmond, Va.:*

DEAR SIR:

I am in receipt of your favor of the 15th instant, stating that you will be here on Tuesday, March 22d, to give a hearing in the matter of stopping trains at the old station.

With thanks, I am, very truly yours,

J. LAURENCE CAMPBELL.

General J. C. HILL,

*Railroad Commissioner, Richmond, Va.:*

DEAR SIR:

I am advised by Mr. Sands as follows: "At no time have we shown any disposition to grant the privilege you ask for in your recent letter at Bedford"; and noting in your letter that you have acted in thorough accord with the citizens of Bedford in this matter, I will be glad if you will advise me what has been done and what is the present status of the case, as I certainly do not expect to concede a case in which we are so clearly right without at least making all the effort possible to obtain redress.

Yours truly,

EDGAR FRANKLIN,  
*Secretary.*

RICHMOND, VA., MARCH 18, 1892.

EDGAR FRANKLIN, *Esq.*,

*Secretary Board Trade, Lynchburg, Va.:*

DEAR SIR:

In response to yours of the 17th inst., I went to Roanoke and Bedford City last week, and left the latter under the impression that a satisfactory arrangement could be made. Since that I have had letters from Bedford City asking another hearing before I proceeded further. This I have consented to, and have fixed upon next Tuesday morning for that purpose.

Yours truly,

J. C. HILL,  
*Commissioner.*

BEDFORD CITY, VA., MARCH 19, 1892.

General J. C. HILL:

DEAR SIR:

Yours notifying me that you will be in Bedford City Tuesday morning, and will have a talk with me on the subject of the passenger station, has been received. I will be pleased to see you, but deem it proper to state my position in reference to this complaint. I do not believe the present arrangement of passenger station meets the demand of the public in the way of railroad facilities, and am of opinion that we ought to have a stop at the old station, and therefore signed the petition requesting you to come and enquire into the facts, &c., but I *have positively declined to lead* the movement to redress this grievance. When Mr. Bolling wrote me that he had directed you to notify me when you would come here, I at once wrote him to correct this and ask you to report to some other person, as for reasons satisfactory to myself *I would not* take an active part in this movement. I will therefore turn your note over to some other persons, as I suppose it was intended for the complainants generally, rather than to myself personally.

Respectfully,

C. A. BOARD.

BEDFORD CITY, VA., MARCH 23, 1892.

General J. C. HILL:

DEAR GENERAL:

Since the day you appointed the time for your last visit to this place, there has been a desperate effort on the part of the B. C. land company to get up a petition, which I think is misleading. I, of course, don't know what your idea is, whether to be influenced by petitions or do as you expressed an intention—to require the railroad company to accommodate the traveling public by making a stop at the old depot. If you wish for the people of the town, and that portion of the county that is tributary to this town, we think we can get several thousand names, but don't want to have to do so unless you think it necessary. The first petition was only to call your attention to our grievances. Please let me know if you think another petition would be advisable.

Very truly yours,

W. H. MCGHEE.

DEAR SIR:

Bedford station facilities.

I have arranged to have the further hearing of the Bedford station matter on Monday, the 28th instant, the meeting arranged for last Tuesday having been deferred on account of my sickness.

Kindly notify the parties interested accordingly, that I will arrive at Bedford on the early morning train.

Yours respectfully,

J. C. HILL,

Commissioner.

*Copies of two locals in Bedford Democrat of January 31, 1890. Name of Liberty changed and limits extended, taking in grounds where new depot is, on March 3, 1890. See acts 1889-'90, page 757.*

FRIDAY, January 31, 1890.

A petition has been in circulation and has been numerously signed, asking the Norfolk and Western railroad authorities to build a new and more attractive passenger depot at Liberty. We are pleased to say that there is a prospect of success in that coveted enterprise.

FRIDAY, January 31, 1890.

### WHAT IS TO BE.

*A new passenger depot to be erected in the near future.*

We have for some time past known that a movement was on foot to give an impetus to our town, but for prudential reasons have refrained from mentioning the things that were in prospect.

Among those things was the erection of a more commodious passenger depot. We now feel authorized to say that the building of such depot is an assured fact. Yesterday Superintendent Joseph H. Sands made a visit to Liberty with the object of looking over the ground and selecting a suitable sight. This was his first visit to our place, and his drive around town dispelled the ideas formed by looking out on the surroundings of our present depot and along the railroad. He was much pleased with our location and capabilities, and especially with the spirit lately manifested by our enterprising citizens who are pushing the new enterprise. We are also authorized to say that the site of the new depot will be immediately west of the Academy grounds, and that a handsome stone structure will be erected there in the near future that will cost \$30,000. *It is also a part of the plan to build a large and substantial brick freight depot at the present site, and to allow passengers to get on and off at that point.*

It is proposed to lay off and ornament the grounds around and the approaches to the new depot so as to make it an attractive place. There are other things proposed that will add materially to the substantial business of the place, but we prefer to wait till they have taken definite shape. Our citizens who met with Mr. Sands were well pleased at the disposition he showed to help us, if we will only help ourselves. The Democrat has no axes to grind, but stands ready to push any and all enterprises looking to the development of our town, for which nature has done so much. There is an old adage that "the gods help those that help themselves." Let every good citizen put his shoulder to the wheel and press forward the good work. In unity there is strength.

City and county of Philadelphia, ss:

Frederick J. Kimball, being duly sworn according to law deposes and says: I am the president of the Norfolk & Western railroad company. During the year 1889 or 1890, Mr. Joseph H. Sands, general manager of our railroad company called my attention to the steadily increasing traffic in both passenger and freight to and from Bedford, and he exhibited to me some statistics bearing upon that subject, and at the same time stated that it had been brought to his attention that the citizens of Bedford felt that our railroad officials had not shown the same interest in Bedford as they had at other points. I replied to Mr. Sands that that was a reproach which should no longer be made, and suggested to him that we at once go together to Bedford, meet some of the citizens and see if anything could be done which would be a benefit to them, and thereby increase the business of the station.

We visited Bedford, met a number of leading citizens and had a general discussion as to what could be done that would be mutually beneficial to the town and the railroad, and it was stated to us that the accommodations then afforded at the present station were entirely inadequate to the business, and we were asked to erect a new passenger station, retaining the old station exclusively for freight purposes. We then made an examination to find a suitable location for the passenger station in the event of our deciding to adopt the suggestion made to us. In selecting a site for a passenger station it was advisable to locate it on the side of the railroad opposite to the freight station, so that when cars were standing in front of the freight station for the purpose of unloading they would not be in the way of passengers getting on and off the trains. Our railroad company owned no land suitable for a passenger station in the vicinity of its old station, and none was available suitable for the purpose, it being our desire and the desire of the citizens with whom we conversed, that the station should be attractive and surrounded

with ample grounds which could be beautified and made attractive. We examined various sites which were suggested, both east and west of the station, and one was selected which appeared to be the most desirable as being near the site for the proposed hotel and Randolph-Macon Academy. We stated that if the site was donated to the railroad company, and streets opened and improved, that the railroad company would put up a new passenger station, but before deciding we wished to know definitely that a new passenger station was really required, and that the site selected was considered a proper one. These views were expressed to Major Griffin, and in response thereto a petition, a copy of which is hereto attached, was handed to Mr. Sands, signed by over 170 individual citizens, corporations and partnerships residing or doing business at Bedford, and we were informed and believed that the petition contained the names of citizens of almost all if not all the influential and prominent citizens of the town, and persons holding high official position in the community. The petition called attention to the serious disadvantages suffered by the town for want of suitable and comfortable accommodations for passengers at the old station, and earnestly requested that the railroad company erect at such point as it might elect, a passenger station which would at once promote the comfort of the public and the attractiveness of the town as a means to its prosperity. This petition the railroad company received and considered as reflecting the well considered opinion of the citizens of Bedford, and it was urged upon the railroad company that if an attractive passenger station was erected it would be a great aid to the improvement of the town and the development of its business. With this petition before it, and after further thorough and careful investigation and consideration of the subject by its officials, and after consultation with the leading citizens of Bedford, the railroad company with the full knowledge of the citizens of Bedford, and in an earnest desire to accommodate and benefit them, and at the same time with a due regard to the accommodation, business and necessities of the place, the traveling public and the obligations and convenience of the railroad company, it was decided to locate the new station where it was subsequently built. The contract for the construction of the new station was given out on August 29, 1890, and the work having commenced soon afterward the new station building was completed and opened for business on September 7, 1891. When the new station was opened the old station was abandoned for passenger purposes, and since then has been used exclusively for freight. The new station building has cost the railroad company the sum of \$24,205 80, and is one of the handsomest and most substantial buildings upon the Norfolk & Western railroad. It is situated near the principal hotel and in front of the Randolph-Macon Academy, and is easily accessible to all parts of the town, and it furnishes good and ample facilities to the public. To compel the railroad company to stop its passenger trains at the old station would be an unnecessary burden upon the railroad company, as it would increase its expense without increasing its business. In comparison to the great number of passengers who would be inconvenienced and delayed by the additional stoppage and loss of time, the convenience it would afford to a few would not be worthy of consideration. To maintain an additional station, additional ticket and baggage facilities would have to be furnished, involving the railroad company in large additional and unnecessary expenses for employees, the salaries of whom would be at least \$100 per month.

If compelled for any reason to stop its passenger trains at the old station, it will be necessary for the company to abandon the use of and remove the new one, as

the business of the town does not justify the maintenance of two passenger stations.

F. J. KIMBALL.

Sworn and subscribed before me this 4th day of April, A. D. 1892.

CHAS. H. BANNARD,  
*Notary Public.*

We, the undersigned citizens of the town of Liberty, realizing the serious disadvantages to our town of the want of a suitable and comfortable accommodation of railroad passengers at the present station of the Norfolk and Western railroad company at Liberty, and appreciating the liberal spirit of said company as exhibited toward the towns along the line of its road, respectfully and earnestly petition said company to erect at such point as it may select, a passenger station that will at once promote the comfort of the patrons of the road and the prosperity and attractiveness of the town.

RICHMOND, VA., APRIL 5, 1892.

TO THE HONORABLE,

*The Board of Public Works of Virginia :*

GENTLEMEN :

Pursuant to sections 1299, 1300, and 1301, Code of Virginia, I herewith submit to your honorable body all the papers in connection with the complaint of sundry citizens of Bedford City *vs.* The Norfolk and Western railroad company, in the matter of depot facilities at Bedford City, and ask that you take such action as you may deem necessary in the premises.

Very respectfully, your obedient servant,

J. C. HILL,  
*Commissioner.*

RICHMOND, VA., APRIL 6, 1892.

General J. C. HILL,

*Railroad Commissioner, Richmond, Va. :*

DEAR SIR :

Your favor of the 5th inst., together with the papers submitted in regard to complaint of citizens of Bedford City against the Norfolk and Western railroad company, in the matter of depot facilities at that point, were laid before the Board this day, and after hearing arguments *pro* and *con*, the board entered the following :

" And the board having maturely considered the question, and it appearing to the board that the present passenger depot of the Norfolk and Western railroad company, at Bedford City, was built at the request of a very large number of the citizens of that city, and at an expense of \$24,205 80, and that a very large majority of the citizens now oppose the action desired by the petitioners, the board declines to take any action looking to a change in the present depot and the stoppage of passenger trains."

I return you the papers.

Yours truly,

C. LEE MOORE,  
*Secretary.*

RICHMOND, VA., APRIL 12, 1892.

Mr. E. FRANKLIN,

*Secretary Board Trade, Lynchburg, Va. :*

DEAR SIR :

Station facilities at Bedford.

Referring to my letter of the 30th ulto. pertaining to this matter.

The Board of Public Works heard this case on the 6th inst., and I send you herewith copy of notice received from the secretary, giving their decision in the matter.

Yours respectfully,

J. C. HILL,  
*Commissioner.*

# RENTALS PAID.

This company leases the Potomac railroad, and allows as rent the interest on the debt due by that company, and also keeps the road and property in repair. No money passes between the two companies.

The Richmond, Fredericksburg and Potomac and the Richmond and Petersburg railroad companies lease the Connection railroad and allow as rent stipulated rates on freight and passengers, for which see that company's financial statements.

The Richmond, Fredericksburg and Potomac and Petersburg railroad companies own the James River branch jointly, but that line is operated by the Richmond, Fredericksburg and Potomac company under an arrangement that each company shall receive one-half the earnings and pay one-half the expenses.

## EXPLANATORY REMARKS.

The item "other deductions" includes the sum of \$31,155 47, that being this company's proportion—to-wit, one-half of the loss sustained to June 30, 1892, in operating the Georgia, Carolina and Northern railway, this company being a co-lessee of the said railway, which lease provides that 65 per cent. of the gross income of said railway and property shall be retained to pay the cost of operation, but 65 per cent. of the gross income of said railway not being sufficient to pay the cost of operation up to June 30, 1892, this company was called upon to make up one-half of the deficit.

An account of the operations of the Georgia, Carolina and Northern railway is kept entirely separate and distinct from the accounts of the lessees individually, and nothing appears in the income account of this company concerning that railway except a payment to make up a deficit as above, or a profit should the cost of operation not amount to as much as 65 per cent. of the gross income.

IMPORTANT CHANGES DURING THE YEAR.

By deed of lease dated July 1, 1889, this company, with the Raleigh and Gaston railroad company (jointly), leased the Georgia, Carolina and Northern railway (then being constructed from Monroe, N. C., to Atlanta, Ga.), and guaranteed the interest and principal of \$5,360,000 of that railway company's first mortgage bonds, bearing 5 per cent. interest. That railway was completed to Atlanta during the present fiscal year, and is now being operated as though it was an independent concern, having its own treasurer, superintendent, and other officers, and makes its own reports. The terms of the lease provide that 35 per cent. of the gross income, after paying all taxes and assessments, shall be devoted to paying expenses of keeping up the organization of the company, interest on bonds, debts incurred previous to the lease, and dividends in the order given. Sixty-five per cent. is to be used to pay the cost of operation. Should the cost of operation exceed 65 per cent. of the gross income as above, the lessee companies will furnish the sum necessary to make up the deficit.

Five hundred thousand dollars of first mortgage bonds were sold and \$250,000 first mortgage bonds of the Raleigh and Augusta Air Line railroad company were purchased.

CONTRACTS, AGREEMENTS, ETC.

A contract with the Southern Express company under which this company receives 40 per cent. of the gross earnings.

United States Postoffice department pays according to weight of mail carried, as provided by law.

Pay mileage on Pullman sleepers.

Contract with Pennsylvania railroad company, Atlantic Coast Line, and Seaboard Air Line, under which each company furnishes a proportion of the cars for the Dispatch Line.

Agreement with Atlantic Coast Line, Piedmont Air Line, and Seaboard Air Line, constituting the associated railways of Virginia and the Carolinas, for the maintenance of rates. Agreements with the Norfolk and Western and Norfolk and Southern railroad companies for maintaining rates to competitive points; also, same with the Atlantic and Danville railway. Agreement with Petersburg railroad company for joint use of track from Gray's station to Weldon, N. C.

Agreement with Merchants and Miners, Old Dominion S. S., Clyde Line, and Baltimore S. Packet company, Washington Steamboat line, and Albemarle company for interchange of traffic. This company is also a member of the Southern Railway and S. S. association.

Contract with the Western Union Telegraph company under which that company maintains its lines upon the right of way of this company.

Sundry unimportant contracts.

EXPLANATION OF ACCIDENTS.

July 18, 1891—Cobb Eichelberger (colored), passenger on excursion train from Cape Charles, Va., to Ocean City, Md., while standing on platform of baggage car at Keller, Va., was thrown under the train by the parting of the cars and injured so badly that he died the same day.

September 29, 1891—John Boaz, employee in machine shop, while working between cars at Cape Charles, Va., was caught between them and had his collar bone broken.

March 22, 1892—Samuel Barnes (trespassing), while attempting to take a stick of wood from the track just north of Parksley, Va., was struck by train No. 16 and killed.

June 8, 1892—J. B. Wright (employee), chief engineer of steamer Old Point Comfort, fell over a broken plate in engine room with a hatchet in his hand and severed all four fingers on left hand below the second joint. Occurred at Cape Charles, Va.

## NORFOLK AND CAROLINA RAILROAD COMPANY.

---

### HISTORY.

Name of common carrier making this report—The Norfolk and Carolina railroad company.

Date of organization—July 6, 1886.

Organized under the general laws of North Carolina and acts of General Assembly of North Carolina, March 7, 1887, January 21, 1889; acts of the General Assembly of Virginia, May 5, 1887, January 27, 1888.

Consolidated with the Western Branch railway company, chartered by the General Assembly of Virginia, February 19, 1886, and the Chowan and Southern railroad company, chartered as stated above. Name changed February 14, 1889, to the Norfolk and Carolina railroad company.

Date and authority for each consolidation—The Chowan and Southern railroad company, under the act of January 27, 1888, of Virginia, purchased the entire property and franchises of the Western Branch railway company, and took possession of same July 1, 1888.

Adams Express Company.—The leasee company furnishes cars and transportation, for which the express company pays 40 per cent. of the express receipts.  
United States government pays \$77 81 per mile per annum for the transportation of United States mail.

EMPLOYEES AND SALARIES.

This road is leased to and operated by the Cumberland Valley railroad company, and the information asked for is not kept separately by the lessee company. Moreover, it is impossible to determine the total number and total yearly compensation of employees in Virginia, as with the exception of a few station and trackmen, employees are not confined to one State. The Cumberland Valley railroad company, however, will be glad to furnish data for this table, embracing the employees of its entire system, the same as furnished for use of the Interstate commerce commission.

PASSENGER AND FREIGHT, AND TRAIN MILEAGE.

The information asked for is not kept by the Cumberland Valley railroad company's lessee for the leased road separately, but for the system as a whole. The information will be furnished for the whole, if desired.

FREIGHT TRAFFIC MOVEMENT—COMPANY'S MATERIAL EXCLUDED.

The information asked for has not been kept by the lessee company for the leased line separately, but the freight traffic movement over the entire system will be furnished if it is desired.

## FARMVILLE AND POWHATAN RAILROAD COMPANY.

---

### HISTORY.

Name of common carrier making this report—The Farmville and Powhatan railroad company.

Date of organization—March 10, 1884.

Organized under the laws of the State of Virginia. Special charter granted by act of assembly passed March 3, 1884, chapter 233. Amendatory acts passed March 5, 1888, chapter 491, and March 5, 1890, chapter 478.

The Brighthope railway company's road was purchased and merged into the Farmville and Powhatan railroad. The Brighthope railway was the successor of the old Clover Hill railroad, which was chartered by act of assembly of the State of Virginia, passed February 5, 1841, and amended December 16, 1843, February 19, 1845, March 4, 1846, and March 16, 1858, and was sold under foreclosure in 1877 to its bondholders, who reorganized it under the name of the Brighthope railway company.

The date of the purchase of the Brighthope railway was July 23, 1889, and property delivered October 1, 1889.

The authority to purchase is conferred on the Farmville and Powhatan railroad by its charter.

The authority for the sale of the Brighthope railway was under the general statutes relating to foreclosures.

### CONTRACTS, AGREEMENTS, ETC.

Agreement between Union Palace-Car company and Richmond and Danville railroad company, dated January 25, 1889, to continue for twenty-five years, unless terminated by failure of either party to comply with terms of contract, in which event sixty days' notice in writing will be given of such failure, and the party not in default will then have the right to declare the agreement void.

Sleeping-car company is to own all sleeping and parlor cars, furnish them with proper employees; such employees subject to the rules of the railroad company, and when objectionable to the railroad company, same shall be discharged. Railroad company to pay the sleeping-car company two cents per car per mile for every mile run over its roads by such sleeping cars. Railroad company to haul, free of charge, sleeping cars to repair shops, and to and from other points on the lines of railroad as may be necessary to put such cars in place for service. Railroad company will furnish lubricating material, ice and water, fuel for heating, and shall wash and clean such cars on the outside; shall replace coupling and air brake hose. Railroad company pays to the sleeping-car company the cost of repairing such cars on account of accident or other casualty, except when such casualty arises from defective heating or lighting apparatus, or the actual negligence of the employees of the sleeping-car company. Railroad company can make repairs to such cars when necessary at the cost of the sleeping-car company, other than those growing out of accident. Railroad company to furnish free transportation to owners of sleeping-car company and vice versa. All settlements to be made monthly. Railroad company to save the sleeping-car company harmless on account of damage caused and expenses growing out of accident to its employees, the railroad company being liable to such employees as if they were in fact employees of the railroad company.

This contract, for consideration of one dollar and other good and valuable consideration, was assigned to the Pullman Car company, with guaranty of the prompt and faithful performance by the Union Palace-Car company of its provisions.

Contract with Southern express company, dated May 20, 1888, to remain in effect a period of ten years, and to continue thereafter until ninety days' notice in writing given by either party of its intention to terminate same.

Express company shall not make rates on local or non-competitive business less than fifty per cent. above class freight rates per hundred pounds of the railroad company. If rates charged by express company to public are deemed unsatisfactory by railroad company, they shall be modified. Agents at way or terminal points to act as agents of the express company, for which express company will pay reasonable compensation, to be approved by the general manager of the railroad company. Railroad company to furnish free transportation for officers and employees of express company while traveling on business. Railroad company not to be responsible for any damage to said employees, except when caused by gross negligence of railroad company. Employees of express company to be subject to rules of railroad company on all its trains. Railroad company to receive forty-five per cent. of gross revenue of non-competitive or local business. Railroad company to receive forty per cent. of gross revenue of through business. In consideration of express company assuming all responsibility of gold and silver bullion, or specie, carried, the railroad company shall do the transportation at the rate of twenty-five cents per hundred pounds per hundred miles, or fractions thereof. On other moneys and valuables, express company will retain the whole revenue, assuming all responsibility therefor. Railroad company not to be held responsible for any damage or loss by delay or failure to deliver goods or other articles. Express company agrees to indemnify railroad company from all loss. Express company to transport free of charge, sealed packages and remittances or collections of the railroad company over its own lines, at the risk of the railroad company, except for loss which may result from the negligence or dishonesty of employees of the express company. When sent beyond its lines the railroad company to pay two-thirds of regular rates.

Contract with Adams express company, dated February 26, 1886, to remain in effect for three years and continue thereafter until ninety days' notice, in writing, to terminate by either party.

Express company shall not make rates or charges per hundred pounds less than freight rates of railroad company. All rates, however, to receive approval of officers of railroad company. Agents of the railroad company, where desired, can act as agents of the express company. Railroad company to furnish free transportation for officers and messengers of express company while traveling on express business, but at their own risk. Of revenue collected on local business, the rail-

road company shall receive forty-five per cent., and on through business railroad company shall receive forty per cent. of the express company's proportion of freights transported over its lines. Express company will transport, free of charge, sealed money packages over line of railroad company, and to points beyond its lines will charge two-thirds of its regular rates.

Contract between Baltimore and Potomac railroad company and Richmond and Danville railroad company, covering lease of track between south end of Long bridge and passenger station at Washington, dated March 28, 1889, to continue in force until January 1, 1890, and from year to year thereafter until either party shall give the other party notice, six months prior to the expiration of any year, of the desire to terminate same.

Potomac company grants Danville company right to transport its own passenger trains over track between south end of Long bridge and passenger station at Washington. Also agrees to give the Danville company such accommodations in its passenger station in the city of Washington as can be given without detriment to its regular business. Danville company, in consideration of rights granted, agrees to forward, as far as it may do so, all of its passengers, mail, and express traffic destined to and from points on or reached by its lines and passing to or from the city of Washington by the Potomac company. Danville company agrees to pay fifteen cents for each passenger transported between points south of the Rappahannock river and Washington and points north thereof, and ten cents for each regular passenger transported between points north of Rappahannock river and Washington and points north thereof; and six cents on commutation tickets between points north of the Rappahannock river and Washington, and such compensation for mail and express traffic as may be agreed upon from time to time. Danville company also agrees to pay the Potomac company for switching freight cars in either direction between the freight station to be established near south end of Long bridge in the yards of the Danville company at seventy-five cents for each loaded car, and the sum to be paid for in any one day shall never be less than twenty dollars. No charge for empty cars. All employees of the Danville company to be under the control of the Potomac company, and each party shall be severally, not jointly, responsible for loss or damage which may be caused by the fault of employees solely in its own service.

Agreement between Alexandria and Washington railway company and Richmond and Danville railroad company, covering use of tracks between Alexandria and south end of Long bridge, dated March 26, 1869. The Alexandria company grants the Danville company the use of its railway between Duke street, Alexandria, and south end of Long bridge to connection with the Baltimore and Potomac. The trains and employees of the Danville company to be subject to regulations and orders of the superintendent or proper officer of Alexandria company. Each party to be severally and not jointly responsible for the loss or damage which may be caused by fault of the employees in its own service or defect in its own equipment; each party to protect the other in case of loss; agents, telegraph operators, watchmen, switchmen, train dispatchers employed in maintenance, or care of, or operation of the property aforesaid, shall in respect of the liability of the parties operating said line to each other or to third persons, growing out of the fault or neglect of such agents of the party to, or upon, or in connection with whose trains or property any loss may have occurred, neither party in such cases being liable to the other; but where loss or damage to their property is sustained by the parties hereto, through their joint negligence, then each party shall bear its own loss. The Danville company to pay the annual rental at the rate of five per centum at the appraised value of the railway jointly used, which is understood to be \$250,000; also one-half of all taxes. Should any additional real estate, right of way, or tracks, or other structures be necessary, Alexandria company shall provide same, Danville company to pay one-half of interest on cost of same at five per cent. In addition to rental, Danville company is to pay its proportion of cost of maintenance of operating said railway in proportion to car and engine mileage.

Agreement between associated railways of Virginia and the Carolinas. Parties to the agreement: The Richmond and Danville railroad company, representing its owned, leased, controlled, and operated roads (the Georgia Pacific excepted), constituting with its connections the Piedmont Air Line, and other freight and passenger lines. The Atlantic Coast-Line company, representing its owned, leased controlled, and operated roads, constituting with its connections, together with the Seaboard and Roanoke railroad company, the Atlantic Coast Line and other freight and passenger lines. The Seaboard and Roanoke railroad company, Raleigh and Gaston railroad company, Raleigh and Augusta Air-Line railroad company, and the Carolina railroad company, representing their owned, leased, controlled, and operated roads, constituting with their connections, and the Petersburg railroad company and the Richmond and Petersburg railroad company, the Seaboard Air Line, and other freight and passenger lines.

Contract entered into to harmonize interests of roads parties to the agreement, and to constitute

an alliance for mutual protection in regard to rates. All rates to competitive points between either of the three lines to be issued by a joint officer, known as "commissioner." All independent solicitation of traffic is prohibited. Expense of joint agencies to be divided on gross revenue of lines as reported by the auditor of the several companies. Contract dated August 1, 1892, and to remain in force five years.

Agreement between companies composing the Piedmont Air Line, viz.: Atlanta and Charlotte Air-Line railway company, Charlotte, Columbia and Augusta railroad company, Richmond and Danville railroad company, Richmond, York River and Chesapeake railroad company, Messrs. Wm. P. Clyde & Co., and Merchants' and Miners' transportation company. The last three representing steamer lines between West Point, Va., and Providence, R. I., New York, Philadelphia, and Baltimore.

Agreement covers establishment of through freight service between Boston, Providence, New York, Philadelphia, and Baltimore, to West Point and Richmond, Va., and southern cities.

Agreement executed — day of July, 1879, and is still in force.

Contract covering Richmond and Danville despatch between Pennsylvania railroad company, Philadelphia, Wilmington and Baltimore railroad company, Baltimore and Potomac railroad company, Alexandria and Washington railroad company, and Richmond and Danville railroad company, and such other companies as may by mutual consent become parties to the agreement for the purpose of forming a through freight line to and from the lines of the companies above mentioned, between the cities of New York, Philadelphia, and Baltimore, and including such other points as are reached by the Pennsylvania railroad company, and all stations on the Richmond and Danville railroad company's lines. Line to be designated as Richmond and Danville despatch.

Agreement dated August 1, 1887. Each company to be responsible for freight while on its own line. The Pennsylvania railroad, representing lines north of Alexandria, contributing fifty freight cars, and the Richmond and Danville railroad company, contributing two hundred freight cars, and in case the business requires additional equipment, same to be furnished in like proportion. Five thousand pounds to be considered a minimum car load. Each company agrees to forward the cars of this line without delay when offered in good order. Loaded cars rejected at junction points shall be promptly prepared. All car-loads to go through to destination without transfer, unless prevented by defective cars, or unavoidable cause. Rates under this contract to be subject to approval of general freight departments of the several roads.

## PROPERTY LEASED.

Leased by the Washington City, Virginia Midland and Great Southern railroad company to the Baltimore and Ohio railroad company, under deed dated August 20, 1873. Lease covers that part of the Manassas branch between Strasburg and Harrisonburg. Baltimore and Ohio pays rental for same—\$89,250 00—payable semi-annually in gold coin, from 1st day of September, 1885.

The lessor company conveys to the lessee company all of its works and property of every kind and description, except that portion of its road between Strasburg and Harrisonburg, Va., theretofore leased to the Baltimore and Ohio railroad company, together with all its rights and interest in and to the road between Orange and Charlottesville, Va., and between Franklin Junction and Rocky Mount, Va., together with all debts, dues, demands, and claims due and to become due to the said lessor company. The lessee company is to receive the income and revenue arising from the operation of the Virginia Midland railway and other property so leased, and is to apply the same to the payment of the operating expenses of said railway, to the payment of the interest on the outstanding bonds of said Virginia Midland railway company, to the payment of the rentals of the several roads, the leases of which are assigned in said agreement, and to the maintenance of the corporate organization of said Virginia Midland railway company, the amount to be paid each year on the latter account, not to exceed the sum of \$2,500; the residue of said yearly revenue and income to be turned over to the Virginia Midland railway company. The lessee to be at liberty to supply any deficiency in yearly revenues from time to time, retaining a corresponding lien on any subsequent yearly residue of revenues until such advances are repaid.

Dated June 1, 1878. Charlottesville company agrees to construct before the 1st of July, 1878, railroad from Charlottesville to Rapidan, connecting two portions of the Washington City, Virginia Midland and Great Southern railroad, road to be constructed in all respects as a first-class single-track road. Charlottesville company permits the receiver to occupy and enjoy said railroad and its franchises forever. Receiver agrees to pay to Charlottesville company the sum of \$36,000 00 per annum, payable quarterly, beginning on the day said Charlottesville railroad shall have been completed, and also agrees to pay same sum of \$36,000 00 for thirty-four years from the date of completion. In case of failure on the part of receiver to pay the rental promptly, lease is to be declared forfeited in sixty days.

After making the thirty-four annual payments, Charlottesville and Rapidan railroad is to become the property of the Virginia Midland railway company.

### CONTRACTS, AGREEMENTS, ETC.

Richmond and Danville railroad company and Virginia Midland railway company and Chesapeake and Ohio railroad company:

Lease of the Gordonsville branch and for use of track between Orange and Alexandria. Agreement dated December 23, 1890.

The Danville company, as lessee of the property of the Midland company, leases to the Chesapeake company, its successors or assigns, for ninety-nine years and one month, from 1st of March, 1891, and renewal thereafter forever, that portion of the Midland railroad between Gordonsville and Orange, for the sum of \$6,000 00 per annum; Chesapeake company to pay all taxes and to protect and hold harmless the Danville and Midland companies against all claims and demands arising out of the operation of said road.

Danville company also grants to the Chesapeake company, with the assent of the Midland company, the use of that portion of the Midland company's road between Orange, Va., to a connection with the Washington Southern railway company, in the city of Alexandria, for a term of ninety-nine years, and renewal thereafter forever.

The Chesapeake company agrees to pay as rental for such portion of same, the sum of \$125,000 00 (being interest at the rate of five per cent. per annum upon a valuation of \$2,500,000 00 per annum), as the engine and car mileage of the Chesapeake company bears to the combined engine and car mileage of the Danville company, but the Chesapeake company shall not pay in any one year less than \$31,250 00. Chesapeake company will also pay its proportion of all taxes on said line.

In addition to taxes and renewals referred to, the Chesapeake company agrees to pay its share of cost of maintaining and operating such lines.

The Chesapeake company further agrees, should additional real estate, right of way, track, bridges, etc., be necessary to conduct traffic for both parties, that it will pay as rental its share of the interest at five per centum per annum on the cost of such additional improvements, based on engine and car mileage as above provided.

Should the Danville company grant the use in common of the line of railway used jointly hereunder, or any part thereof, to any other railway companies, Chesapeake company shall have reduction in rental; question to be left to arbitration.

PROPERTY LEASED, OR OTHERWISE ASSIGNED FOR OPERATION.

Richmond and Mecklenburg railroad company—Leased to the Richmond and Danville railroad company for ninety-nine years from November 21, 1888. Mecklenburg company leases all of its property, of every description, which it now owns or may hereafter own, excepting tracts of land, wherever situated, which may have been donated to the Mecklenburg company as subscription to its capital stock. Mecklenburg company reserving so much of its corporate franchises and rights to maintain its corporate organization. Mecklenburg company transfers to the Danville company all its rights and titles to any incomes, rents and claims of the kind due the Mecklenburg company. Danville company to have sole and exclusive right to operate said property. Danville company to keep such property in as good condition as the same is now in, acts of God and public enemy excepted.

Danville company to receive all rents, revenues, tolls, etc., of operation of said property, and to apply same as follows:

- First. To payment of current cost and expenses to keep road in order, payment of taxes, etc.
- Second. To payment of \$500 00 per annum for maintaining corporate organization of Richmond and Mecklenburg railroad company.
- Third. The payment of interest on first mortgage bonds, bearing date July 2, 1892, to the amount of \$350,000 00, at the rate of six per cent. per annum, payable semi-annually on the first days of May and November of each year, principal of such bonds being payable November 1, 1921.
- Fourth. To the payment of interest on second mortgage bonds, dated May 1, 1887, amounting to \$160,000 00, at six per cent per annum, payable semi-annually first days of May and November in each year; principal of bonds payable first day of May, 1937.
- Fifth. After above payments are made, any and all residue of such receipts to be paid over to the Mecklenburg company.

The Mecklenburg company to co-operate with the Danville company in securing extensions of bonds.

In case revenues or receipts obtained from operation of road are not sufficient to make payments referred to above, the Danville company, at their option, can advance necessary funds, which advance will become a mortgage lien on the property, subject only to the first and second mortgage bonds.

PROPERTY LEASED, OR OTHERWISE ASSIGNED FOR OPERATION.

Piedmont railroad—The Piedmont railroad company, under date of February 20, 1872, granted, leased, and delivered to the Richmond and Danville railroad company its entire road, with rolling stock, materials, and equipment of every description, for full term of seven years from that date, to hold the same as fully and completely and to the same extent and in all respects as if vested in and held by the Danville railroad company. Richmond and Danville railroad company to pay annual rental of \$60,000, in semi-annual instalments, on the 20th days of August and February in each year. Said deed of lease contained clause which subjected it at any time to modification or recission by mutual agreement of the two companies. Said companies modified said lease; the Piedmont railroad company granting the Richmond and Danville railroad company right to use its property, rights, and franchises for a term of eighty-six years from and after the 20th day of February, 1874. Richmond and Danville railroad company to keep the property in same good condition as at present. If Danville company defaults in payment of rental for one year, Piedmont company shall have the right to terminate agreement at end of sixty days. When lease was made as a deed of trust on property and works of the Piedmont railroad company, the Danville company agreed to secure said bonds to prevent sale of property under foreclosure, the Danville company agreeing to buy the bonds and hold the same for its protection. Danville company has a right to transfer and assign this lease.

PROPERTY LEASED, OR OTHERWISE ASSIGNED FOR OPERATION.

Clarksville and North Carolina railroad—Leased to the Richmond and Danville railroad company for ninety-nine years, under agreement dated November 12, 1888. Clarksville company leases to the Danville company all of its railroad and property of every description now owned or which may hereafter be acquired; Clarksville company reserving and retaining so much of its said corporate franchises, rights and privileges as may be necessary to preserve and maintain its corporate organization. Clarksville company assigns to the Danville company all rents, revenues, incomes, claims, contracts, etc., now owned or due, or which may hereafter become due or accrue; Danville company to have sole and exclusive right to hold and occupy property leased; Danville company to maintain property leased in as good condition as same now is in, acts of God and public enemy excepted.

Danville company to receive all revenues, rates, tolls, etc., and to apply same as follows:

First. Payment of current cost and expenses of maintenance and operating and keeping road and property in good condition; payment of all claims, taxes, etc.

Second. The payment of \$500 per annum for maintenance of corporate organization of the Clarksville and North Carolina railroad company.

Third. The payment of interest on first mortgage bonds not to exceed \$15,000 per mile, said bonds bearing interest of six per cent. per annum, payable semi-annually in gold coin, on the 1st days of May and November in each year, the principal being payable November 1st, 1937.

Fourth. Any and all residue of said receipts and incomes after above payments to be turned over to the Clarksville company.

Clarksville company to co-operate with the Danville company in extending first mortgage bonds if deemed necessary.

In case net or surplus receipts or revenues are not sufficient to make payments referred to above, the Danville company, at its option, can advance funds necessary to make up deficiency, such advances to become a valid lien in the nature of a mortgage, subject only to first mortgage bonds.

### CONTRACTS, AGREEMENTS, ETC.

#### Adams Express company:

Chesapeake and Ohio receives \$60,000 per annum, payable monthly.

#### United States mails:

Chesapeake and Ohio has no contract. Mails are carried by it under system known as "recognized compensation."

#### Pullman's Palace-Car company:

Maintains its own cars and retains all earnings under \$7,500 per annum. Chesapeake and Ohio pays all running expenses, except salaries.

#### Kanawha despatch:

A co-operation fast freight line over Chesapeake and Ohio and several western roads. Each company furnishes cars and receives and pays its pro rata of earnings and expenses.

#### Richmond and Danville railroad:

Leases to Chesapeake and Ohio for a term of ninety-nine years and one month from March 1, 1891, its line from Gordonsville to Orange, Va., nine miles, for \$6,000 per annum in cash.

#### Richmond and Danville railroad:

Gives Chesapeake and Ohio the right to run its trains over Richmond and Danville tracks between Orange and Alexandria, a distance of 77.8 miles, in consideration of payment by Chesapeake and Ohio of its proportion, based upon car and engine wheelage, of \$125,000, said sum representing

**interest** at five per cent. upon valuation of said 77.8 miles of road and appurtenances: provided **said** proportion shall not in any year be less than \$31,250; and of the further payment by Chesapeake and Ohio of its proportion upon same basis of cost of maintenance of said 77.8 miles and **salaries** of employees. Effective ninety-nine years from April 1, 1891.

Washington Southern railroad:

Gives Chesapeake and Ohio right to its trains over Washington Southern tracks from Alexandria to Long Bridge in consideration of payment by Chesapeake and Ohio of its proportion upon basis of car and engine wheelage of cost of maintenances and salaries of employees, and interest at five per cent. upon valuation of track—viz., \$250,000. Twenty-five years from June 13, 1891.

Baltimore and Potomac railroad:

Gives Chesapeake and Ohio right to run its trains over Baltimore and Potomac tracks from south end of Long Bridge to depot in Washington in consideration of business Chesapeake and Ohio will bring to it, and of payment by Chesapeake and Ohio of its proportion upon basis of car and engine wheelage of cost of maintenances of track and wages of employees. Ten years from June 30, 1891.

N. N. & M. V. Co., E. D. or E. L. & B. S. R. R.:

Gives Chesapeake and Ohio right to run its trains over E. L. & B. S. tracks from Kentucky State line to A. C. and I. Junction in consideration of payment by Chesapeake and Ohio of its proportion upon basis of car and engine mileage of cost of maintenance of tracks and trestles, and of similar use upon same terms of Chesapeake and Ohio tracks from Kentucky State line to Huntington, W. Va.

Merchants and Miners Transportation company:

Runs lines of steamers from Newport News to Boston and Providence, receiving for freights from Chesapeake and Ohio local points certain specified revenues, and upon freights from competitive points via Chesapeake and Ohio a prorate of the through revenue based upon relation of its 300 miles to entire length of haul.

Old Dominion Steamship company:

Runs a line of steamers from Newport News to New York, receiving from Chesapeake and Ohio local points certain specified rates, and from competitive points a prorate of the through revenue, based upon relation of 160 miles to entire haul.

Furness Steamship company:

Runs a line of steamers from Newport News to London, accepting usual ocean rates of freight and passage. May 4, 1891, to run five years.

Western Union Telegraph company:

Chesapeake and Ohio and Western Union Telegraph company both own lines on Chesapeake and Ohio. Telegraph company does all commercial business, giving Chesapeake and Ohio twenty-five per cent. of receipts from such business done at Chesapeake and Ohio stations. Chesapeake and Ohio hauls freight for telegraph company free to extent of \$1,200 per annum. Telegraph company gives Chesapeake and Ohio telegraphing to extent of \$14,500 per annum free. Each company maintains its own lines.
